"A bold, new voice." —People "A nuanced addition to the #MeToo conversation." —Vice A young survivor tells her searing, visceral story of sexual assault, justice, and healing in this gutwrenching memoir. The numbers are staggering: nearly one in five girls ages fourteen to seventeen have been the victim of a sexual assault or attempted sexual assault. This is the true story of one of those girls. In 2014, Chessy Prout was a freshman at St. Paul's School, a prestigious boarding school in New Hampshire, when a senior boy sexually assaulted her as part of a ritualized game of conquest. Chessy bravely reported her assault to the police and testified against her attacker in court. Then, in the face of unexpected backlash from her once-trusted school community, she shed her anonymity to help other survivors find their voice. This memoir is more than an account of a horrific event. It takes a magnifying glass to the institutions that turn a blind eye to such behavior and a society that blames victims rather than perpetrators. Chessy's story offers real, powerful solutions to upend rape culture as we know it today. Prepare to be inspired by this remarkable young woman and her story of survival, advocacy, and hope in the face of unspeakable trauma.

Simple language introduces the concepts of children's rights, why children should have rights, and what rights mean to different children in different parts of the world. Suggested level: junior.

Five leading thinkers on the concept of 'rights' in an era of rightlessness Sixty years ago, the political theorist Hannah Arendt, an exiled Jew deprived of her German citizenship, observed that before people can enjoy any of the "inalienable" Rights of Man—before there can be any specific rights to education, work, voting, and so on—there must first be such a thing as "the right to have rights." The concept received little attention at the time, but in our age of mass deportations, Muslim bans, refugee crises, and extra-state war, the phrase has become the center of a crucial and lively debate. Here five leading thinkers from varied disciplines—including history, law, politics, and literary studies—discuss the critical basis of rights and the meaning of radical democratic politics today.

From the author and illustrator duo who created the award-winning I Have the Right to Be a Child and I Have the Right to Save My Planet comes this beautifully illustrated third book in the series. I Have the Right to Culture explores a child's right to be curious and to experience all of humanity's shared knowledge, including music, art, dance and much more. When a child is born, they learn the language of their parents, they sing the songs of their grandparents and they eat the delicious food that their family prepares. They also start to wonder about the lives of other children who live far away. What languages do they speak? What songs do they sing? And what games do they play? Every child has the right to learn about the world they live in, including its history and its inventions. Every child has the right to learn about artists, about writers, about potters and photographers and architects, about musicians and dancers and poets. All of humanity's treasures are for sharing, and every child has the right to know about what has come before them! Children have the right to partake in culture as proclaimed in the United Nations Convention on the Rights of the Child. Told from the perspective of a child, this colorful and vibrant book explores what it means to be a child who has the right to find beauty in their world. Law professor James J. Duane became a viral sensation thanks to a 2008 lecture outlining the reasons why you should never agree to answer questions from the police—especially if you are innocent and wish to stay out of trouble with the law. In this timely, relevant, and pragmatic new book, he expands on that presentation, offering a vigorous defense of every citizen's constitutionally protected right to avoid self-incrimination. Getting a lawyer is not only the best policy, Professor Duane argues, it's also the advice law-enforcement professionals give their own kids. Using actual case histories of innocent men and women exonerated after decades in prison because of information they voluntarily gave to police, Professor Duane demonstrates the critical importance of a constitutional right not well or widely understood by the average American. Reflecting the most recent attitudes of the Supreme Court, Professor Duane argues that it is now even easier for police to use your own words against you. This lively and informative guide explains what everyone needs to know to protect themselves and those they love.

You have rights. Know them. Use them. Is it legal to record the police? When do police have the right to search your person, home, or car? Do you have the right to walk away when stopped by the police? Knowing the answers to these questions will help protect you and the officer. Laura Coates, former federal prosecutor and Civil Rights attorney, breaks it all down.

From Ron White, the man known by fans (and law enforcement officials) as "Tater Salad," comes a collection of his greatest hits and bits from his onstage shows, as well as some to the more "interesting" stories from his life before comedy, while on the road, in the spotlight and out of his mind. After years working as a journeyman comic, struggling from one gig to the next, Ron White struck gold the Blue Collar Comedy phenomenon, including three feature-length concert films, television appearances, and his blockbuster comedy albums and DVDs Drunk in Public, They Call Me "Tater Salad," and You Can't Fix Stupid. Here, Ron brings his unique brand of humor to the page, accompanied by hilarious illustrations by acclaimed cartoonist Matthew Shultz. For both hard-core "Tater" fans and first timers, this is Ron White at his very best.

From the author and illustrator duo who created the award-winning I Have the Right to Be a Child comes this beautifully illustrated picture book about a child's right to advocate for the environment they live in. All children have the right to learn about the world, to celebrate the water, air and sunshine, and to be curious about the animals and plants that live on our planet. All children also have the right to learn about endangered species, to be concerned about plastic in the ocean, and to understand what a changing climate means for our Earth. Scientists tell us that every living thing is connected. When we cut down forests, we destroy animal habitats. When we throw plastic in the garbage, it never really goes away. When we spray pesticides on our fruit and vegetables, we poison the earth, animals and ourselves. What can children do to help? All children can draw posters of endangered animals to raise awareness. All children can send a letter to the leader of their country, signed by every member of their family. All children can protest along with their parents. Children have the right to do all these things as proclaimed in the United Nations Convention on the Rights of the Child. All children have the right to try to help our Earth, in whatever ways they can. Told from the perspective of a child, this colorful and vibrant book explores what it means to be a child who dreams of a beautiful future for their planet. A "mesmerizing" novel of a love triangle and a mysterious disappearance in South Korea (Booklist). In the fast-paced, high-urban landscape of Seoul, C and K are brothers who have fallen in love with the same beguiling drifter, Se-yeon, who gives herself freely to both of them. Then, just as they are trying desperately to forge a connection in an alienated world, Se-yeon suddenly disappears. All the while, a spectral, calculating narrator haunts the edges of their lives, working to help the lost and hurting find escape through suicide. When Se-yeon reemerges, it is as the narrator's new client. Recalling the emotional tension of Milan Kundera and the existential anguish of Bret Easton Ellis, I Have the Right to Destroy Myself is a dreamlike "literary exploration of truth, death, desire and identity" (Publishers Weekly). Cinematic in its urgency, the novel offers "an atmosphere of menacing erum [set] to a soundtrack of Leonard Cohen tunes" (Newark Star-Ledger). Kim's novel is art built upon art. His style is reminiscent of Kafka's and also relies on images of paintings (Jacques-Louis David's 'The Death of Marat,' Gustav Klimt's 'Judith') and film (Jim Jarmusch's 'Stranger Than Paradise'). The philosophy—life is worthless and snail—reminds us of Camus and Sartre, risky territory for a young writer. . . . But Kim has the advantage of the urban South Korean landscape. Fast cars, sex with lollipops and weather fronts from Siberia lend a unique flavor to good old-fashioned nihilism. Think of it as Korean noir." —Los Angeles Times "Like Georges Simenon, [Kim's] keen engagement with human perversity yields an abundance of thrills as well as chills (and, for good measure, a couple of memorable laughs). This is a real find." —Han Ong, author of Fixer Chao
