If someone in your house loves trains, they will find a kindred spirit in the little boy who narrates this delightful book. He tells us what he likes about a passing train ("I like trains that hoot and roar/as they rumble by my door"), and the surprise at the end is sweet. Illustrations are bright, outlined scenes in a rural setting.

A boy expresses his love of trains, describing many kinds of train cars and their special jobs. I recommend this book because it speaks about the special jobs for flat, hopper, and box cars. Also the illustrations are in bright colors.

Why is it that I love, or used to love, trains so much? I thought about this often when I was effectively banned, by the virus, from my normal daily journey between Oxford and London, 63 miles each way. Even now, in bare modern trains systematically stripped of character and romance, there can be a glorious seclusion in a long-distance train ...

I love this CD. Even better, my son loves it too. He's almost three, and I'm considerably older than that. We got the CD because my son had already fallen in love with the DVD called I Love Big Trains. The DVD has lots of music and all of that music is on this CD, along with music from the I Love Toy Trains DVDs and apparently some other DVDs too.

A follow-up to the successful I Love Trucks!, this rhymed picture book introduces the preschool set to trains and the jobs they do.

I love trains First come engines, big and strong Pulling lots of cars along.

An award-winning account of a crisis in railroad history: "This absorbing book takes you on an entertaining ride." –Chicago Tribune A saga about one of the oldest and most romantic enterprises in the land–America's railroads–The Men Who Loved Trains introduces the chieftains who have run the railroads, both those who set about grabbing power and big salaries for themselves, and others who truly loved the industry. As a journalist and associate editor of Fortune magazine who covered the demise of Penn Central and the creation of Conrail, Rush Loving often had a front-row seat to the foibles and follies of this group of men. He uncovers intrigue, greed, lust for power, boardroom battles, and takeover wars and turns them into a page-turning story. He recounts how the chairman of CSX Corporation, who later became George W. Bush's Treasury secretary, managed to make millions for himself while his company drifted in chaos. Yet there were also those who loved trains and railroading–and who played key roles in reshaping transportation in the northeastern United States. This book will delight not only the rail fan, but anyone interested in American business and history. Includes photographs

Exciting live-action footage of toy trains.

As a young officer posted in India's Eastern Railway, Jeet Arora is responsible for running trains on one of the densest train routes in the country. In doing so, he encounters pretty girls and thugs, shares space with buffaloes and goats and finds himself in the midst of oil spills and fires. As he stumbles across several unexpected. Hilarious and entertaining adventures, can he keep trains and his sanity, on track?

Readers will say, "Yes, yes, yes!" From the moment Bella wakes up, her day goes wrong. She hates her breakfast egg, she won't share, she has a hurting foot, her supper is too hot, and her bath is too cold. And then it's no, no, no to bedtime. But at last a yawn, a story, and a kiss from mother end the day, with the promise of a cheerful tomorrow. Every parent, teacher, and caregiver will respond to this hilariously accurate portrait of one toddler with a case of the Terrible Twos!

Connor loves trains so much that the only thing he ever says is "Woo! Woo!" Until he opens a special gift one Christmas Day.

In simple, powerful words and vibrant illustrations, Donald Crews evokes the rolling wheels of that childhood favorite; a train. This Caldecott Honor Book features bright colors and bold shapes. Even a child not lucky enough to have counted freight cars will feel he or she has watched a freight train passing after reading Freight Train. Donald Crews used childhood memories of trains seen during his travels to his grandparents' farm in the American South as the inspiration for this timeless favorite. New York magazine's The Strategist chose Freight Train as one of the "Best (Nonobvious) Baby Books to Bring to a Shower." As The Strategist stated: "The Caldecott Honor Book is spare and minimal in both art and text and follows the journey of a freight train and all its cars until it rolls off the page and into the distance. It's a good way to learn all the different names of train cars, too." Red caboose at the back, orange tank car, green cattle car, purple box car, black tender and a black steam engine . . . freight train.

In this lap-sized board book by the beloved illustrator, a tortoise takes off his shell so that he can move faster but finds that he misses the protection it offers.
