Scott Fitzgerald's stories defined the 1920s 'Jazz Age' generation, with their glittering dreams and tarnished hopes. In these three tales of a fragile recovery, a cut-glass bowl and a life lost, Fitzgerald portrays, in exquisite prose and with deep human sympathy, the idealism of youth and the ravages of success. This book includes Babylon Revisited, The Cut-Glass Bowl and The Lost Decade.

where the depiction of Satan found in the Book of Revelation is positioned on the axis of two divergent roles. The literary character of Satan is commonly perceived to gradually evolve from the first divine agents in the Hebrew Bible, representing the darker sides of the divine governing of affairs (Job 1-2; Zech 3; 1 Chr 21:1; Num 22:22, 32), to the full-blown enemy of God of the post-biblical era. However, Gulaker posits that texts referring to Satan in between these two poles are not uniform and diverge considerably. This book argues for a new way of perceiving Satan in Revelation that provides a more probable reading, as it creates less narrative dissonance than the alternative of the ancient combat

myth/cosmic conflict between Satan and God. From this reading emerges a subdued Satan more akin to its Hebrew Bible hypotexts and Second Temple Judaism parallels – one that fits seamlessly with the theology, cosmology and the overarching plot of the narrative itself. Gulaker explores the functions of Satan in a text written relatively late compared to the rest of the New Testament, but with strong affinities to the Hebrew Bible, concluding that Satan is characterized more as the leash, rod, and sifting device in the hand of God, than as his enemy.

imagery from the mid-second to mid-first millennium BCE. It demonstrates that in spite of rich textual evidence, which grants the Mesopotamian gods and goddesses an anthropomorphic form, there was a clear abstention in various media from visualizing the gods in such a form. True, divine human-shaped cultic images existed in Mesopotamian temples. But as a rule, non-anthropomorphic visual agents such as inanimate objects, animals or fantastic hybrids replaced these figures when they were portrayed outside of their sacred enclosures. This tendency reached its peak in first-millennium Babylonia and Assyria. The removal of the Mesopotamian human-shaped deity from pictorial renderings resembles the

Biblical agenda not only in its avoidance of displaying a divine image but also in the implied dual perception of the divine: according to the Bible and the Assyro-Babylonian concept the divine was conceived as having a human form; yet in both cases anthropomorphism was also concealed or rejected, though to a different degree. In the present book, this dual approach toward the divine image is considered as a reflection of two associated rather than contradictory religious worldviews. The plausible consolidation of the relevant Biblical accounts just before the Babylonian Exile, or more probably within the Exile - in both cases during a period of strong Assyrian and Babylonian hegemony - points to a

direct correspondence between comparable religious phenomena. It is suggested that far from their homeland and in the absence of a temple for their god, the Judahite deportees adopted and intensified the Mesopotamian avoidance of anthropomorphic pictorial portrayals of deities. While the Babylonian representations remained confined to temples, the exiles would have turned a cultic reality - i.e., the nonwritten Babylonian custom - into a written, articulated law that explicitly forbade the pictorial representation of God.

his Kingdom by considering the fundamental role the Kingdom of God plays in the theology of Jurgen Moltmann and in the book of Revelation. Part one is devoted to how Moltmann understands The Kingdom of God as the fundamental symbol of hope for humanity, and how he sees the presence of God's reign and kingdom in history as hidden and paradoxical. Part two turns to the way the Book of Revelation uses royal and other political language in its portrait of the future and God's presence in history. In this second part, the book also seeks to explore how Moltmann and the Apocalypse may mutually inform each other, how Moltmann may help us read this biblical book today, and how it in turn

The Beast and Babylon answers some age-old questions about the two symbolic entities featured in the book of Revelation. Christ. In contrast, this informative and timely study reveals that the latter-day beast power rises out of not one, but out of three defunct previous empires in the Middle East; known via Daniels metaphors as the lion, bear, and leopard kingdoms. It appears from Daniel 7:11-12, that long after the last manifestation of the Roman Empire is destroyed, these three dormant empires are revived for a season and a time. During their rejuvenation, they reappear in Revelation 13 and 17 in the form of a tripartite, seven-headed, political/religious beast power that emerges from the topographies of the ancient Grecian (leopard), Persian (bear), and Babylonian (lion) kingdoms. Furthermore, these combined territories encompass ten sovereign

Today, many of these Islamic nations contain embedded terrorist groups whose fanatical Jihadist leaders are determined to resurrect a radical pan-Islamic Caliphate, by which to establish Sharia law throughout the World.
