A recent history of industrialisation in South Africa. The legacy left on the country ' s industry by apartheid policies and the resulting sanctions were devastating (DTI, 2007a). Policies that had been designed to benefit just 25% of the population had created an inefficient industrial structure (Chang, 1997).

~~Economy of South Africa – Wikipedia~~

The Mineral Revolution is a term used by historians to refer to the rapid industrialisation and economic changes which occurred in South Africa from the 1870s onwards. The Mineral Revolution was largely driven by the need to create a permanent workforce to work in the mining industry, and saw South Africa transformed from a patchwork of agrarian states to a unified, industrial nation. In political terms, the Mineral Revolution had a significant impact on diplomacy and military affairs. Finally,
