equally between the UK government, the charity Nesta, and BIT's employees.

Book Review: Inside the Nudge Unit – The Curious Learner

' Inside The Nudge Unit ' is a fascinating book which explains how the use of controlled experiments has helped government policy makers base decisions on scientific evidence rather than doing things the way it has always been done. Using insights from the behavioural sciences the UK government ' s Behavioural Insights Team (BIT) is at the forefront of this scientific approach to decision making.

The Nudge Unit is working closely with the Department of Health and Social Care in crafting the government response. The most visible manifestation of its influence to date is in the communication around hand-washing and face touching – in particular the use of “disgust” as an incentive to wash hands and the suggestion of singing Happy Birthday to ensure hands are washed for the requisite 20 seconds.
