3D Material: A top-down, programming-oriented approach allows for coverage of engaging 3D material early in the course so students immediately begin to create their own graphics.

Introduce Computer Graphics Programming with WebGL and JavaScript: WebGL is not only fully shader-based – each application must provide at least a vertex shader and a fragment shader – but also a version that works within the latest web browsers.

Interactive Computer Graphics: A Top-Down Approach with ...

Computer animation and graphics are now prevalent in everyday life from the computer screen, to the movie screen, to the smart phone screen. The growing excitement about WebGL applications and their ability to integrate HTML5, inspired the authors to exclusively use WebGL in the Seventh Edition of Interactive Computer Graphics with WebGL.
