From Professor Lynn Hunt comes this extraordinary cultural and intellectual history, which traces the roots of human rights to the rejection of torture as a means for finding the truth. She demonstrates how ideas of human relationships portrayed in novels and art helped spread these new ideals and how human rights continue to be contested today.

First what it is not, it is not a story about westerners inventing human rights. Human rights – by their very “self-evident” nature have always existed; they weren’t dreamt up in a bar in Oxford or Geneva. The book might better be called “Re-discovering Human Rights” but I’d probably go with a different title – “Human Rights and the Discovery of Empathy”. Because that’s what this book is about.

This comprehensive work traces the development of human rights from its conceptual roots in the Enlightenment to its full expression in the United Nation's 1948 Universal Declaration of Human Rights. Hunt begins with a wonderfully detailed lexicographical survey of 18th century uses of rights language ("rights of man," "natural rights," "rights of humanity") to show the many currents that led to the first modern declaration of human rights, the Bill of Rights.
