~~Investment Science By David~~

~~Luenberger~~

Luenberger does an incredible job of leaving significant holes in his lessons. In addition to this, many of his examples contain seemingly obvious errors. I have no doubt that he is an intelligent man and an expert in the field of Investment Science, but I confidently claim that he is a terrible educator and

part by some extraordinary theoretical developments in finance, an explosive growth of information and computing technology, and the global expansion of investment activity, investment theory currently commands a high level of intellectual attention. Recent developments in the field are being infused into university classrooms, financial service organizations, business ventures, and into the awareness of many individual investors.
