IP Office 9 - Sunrise Solutions

When a new message is delivered to a user mailbox, Voicemail Pro calls at the phone number configured by the user and plays the prompt "<User name>, you have new messages. To access your messages, please enter your extension number and press hash. To avoid further notification of these messages, press *#". If the user takes an action that is different from the prompted action, Voicemail Pro processes the outcalling notification attempt as unanswered.

Outcalling - IP Office Knowledgebase

Introduction. This post covers the default usernames and passwords used by the Avaya IP Office system. With the release of R9.1, there were a lot of changes focusing around security and not leaving passwords as default or too weak, but below is the list, just in case you need to ever carry out a Security Reset or are working on a brand new system.
