mutante", "soggetto composito", "funzionamento della protesi", "mésaillance", nella comprensione della psicosi, nevrosi e perversione, e nella direzione della cura, appartengono a una questione di metodo. V.F.G. e la filosofia: si propone l'identità tra logica ed etica. E se può sembrare in un primo momento che questo comporti l'identità dell'etica alla logica (Teatralità, Sade), a poco a poco si evidenziano due nuove formulazioni (15 seminari, Definizioni, I saggi) dell'una e dell'altra, per cui alla fine (Una coppia inaspettata) potrebbe essere anche questa la coppia da cui discende una teoria delle forme di vita. All'interno, tante piccole vicende, come quella del termine "rappresentazione". V.F.G., scrittrice: un "luogo della decisione" si fa strada nella psicoanalisi. Attraverso il progressivo ridimensionamento dell'essere in balia dei lapsus o giocato da un proprio inconscio, il protagonista di questa storia trova nelle tappe della propria vita la possibilità di una decisione diversa che lo sottrae a un destino ma gli permette anche di ritrovare il proprio, che non disattende i primi sogni e persino le fantasie di grandezza. Finché, dal punto di vista della fine, persino l'intricato enigma del rapporto uomo donna sembra arrivare a una soluzione.

This book analyzes the relationships that exist between esotericism and music from Antiquity to the 20th century, investigating ways in which magic, astrology, alchemy, divination, and cabbala interact with music. Ce livre offre un panorama des relations entre l'ésotérisme et la musique de l'Antiquité au 20ème siècle et montre comment la magie, l'astrologie, l'alchimie, la divination et la cabale

In this book the bestselling author and psychoanalyst Massimo Recalcati offers a fundamental re-examination of what 'being a mother' means today, in a world where new social and sexual freedoms mean that motherhood is no longer the sole destiny of women. Questioning the belief that a mother's love is natural and unconditional, he paints a more complex and troubling picture of the mother-child relationship, observing that mothers may even resent their children as a result of unresolved conflicts between different dimensions of love. The mother's hands not only nurture but can also potentially harm. Recalcati argues that it is precisely in these competing demands that motherhood fulfils its function: only if the mother is 'not-all-mother' can a child experience the absence that enables it to access the symbolic and cultural world. Recalcati cuts through conventional wisdom to offer a fresh perspective on the changing nature of motherhood today. An international bestseller, this book will appeal to a wide general readership, as well as to students and scholars of gender studies, psychoanalysis and related disciplines.

Explore the groundbreaking performances and creative collaborations of iconic Scottish dancer and choreographer Michael Clark. Hailed as "British dance's true iconoclast", Michael Clark is a defining cultural figure in the contemporary dance world. Since emerging in the early 1980s as a prodigy at London's Royal Ballet School, Clark has remained at the forefront of innovation in dance, working in close

collaboration with a broad range of pioneering artists such as Sarah Lucas, Leigh Bowery, Charles Atlas, Cerith Wyn Evans, Peter Doig, Elizabeth Peyton, Wolfgang Tillmans and musicians such as Mark E. Smith, Wire, Scritti Politti, and Relaxed Muscle. As a young choreographer, Clark brought together his classical ballet training with London's club culture, fashion, and punk rock to establish himself as one of the most innovative artists working in modern dance. His work--variously referencing punk, rock, and pop--is marked by a mixture of technical rigor and experimentation in a way that disrupts and reimagines our understanding of dance. This book features a series of enlightening essays and vivid illustrations of Clark's best-known performances, alongside archival material. Loosely tracing the chronological evolution of his career, a variety of cultural figures--ranging from Jarvis Cocker to Charles Atlas--write about the countercultural undercurrents with which Clark's work connects.

When the last vestiges of his childhood are taken from him, Zerocalcare discovers unsuspected secrets about his family. Torn between the soothing numbness of the innocence of youth and the impossibility to elude society's ever expanding control over people's lives, he'll have to understand where he really comes from, before he understands where he is going.

Argues that affirming the irreducible differences between men and women can lead to more transformative politics than the struggle for abstract

equality between the sexes. In *The Symbolic Order of the Mother* Luisa Muraro identifies the bond between mother and child as ontologically fundamental to the development of culture and politics, and therefore as key to achieving truly emancipatory political change. Both corporeal development and language acquisition, which are the sources of all thinking, begin in this relationship. However, Western civilization has been defined by men, and Muraro recalls the admiration and envy she felt for the great philosophers as she strove to become one herself, as well as the desire for independence that opposed her to her mother. This conflict between philosophy and culture on the one hand and the relationship with the mother on the other constitutes the root of patriarchy's symbolic disorder, which blocks women's (and men's) access to genuine freedom. Muraro appeals to the feminist practice of gratitude to the mother and the recognition of her authority as a model of unconditional nurture and support that must be restored. This, she argues, is the symbolic order of the mother that must overcome the disorder of patriarchy. The mediating power of the mother tongue constitutes a symbolic order that comes before all others, for both women and men.

Philosophers have long struggled to reconcile Martin Heidegger's involvement in Nazism with his status as one of the greatest thinkers of the twentieth century.

The recent publication of his Black Notebooks has reignited fierce debate on the subject. These thousand-odd pages of jotted observations profoundly challenge our image of the quiet philosopher's exile in the Black Forest, revealing the shocking extent of his anti-Semitism for the first time. For much of the philosophical community, the Black Notebooks have been either used to discredit Heidegger or seen as a bibliographical detail irrelevant to his thought. Yet, in this new book, renowned philosopher Donatella Di Cesare argues that Heidegger's "metaphysical anti-Semitism" was a central part of his philosophical project. Within the context of the Nuremberg race laws, Heidegger felt compelled to define Jewishness and its relationship to his concept of Being. Di Cesare shows that Heidegger saw the Jews as the agents of a modernity that had disfigured the spirit of the West. In a deeply disturbing extrapolation, he presented the Holocaust as both a means for the purification of Being and the Jews' own "self-destruction": a process of death on an industrialized scale that was the logical conclusion of the acceleration in technology they themselves had brought about. Situating Heidegger's anti-Semitism firmly within the context of his thought, this groundbreaking work will be essential reading for students and scholars of philosophy and history as well as the many readers interested in Heidegger's life, work, and legacy.
