Neither negating nor privileging the nation-state, *Locating Migration* provides ethnographic insights into the various ways in which migrants and specific cities together mutually constitute and contest the local, national, and global. Cities are approached not as containers but as fluid and historically differentiated analytical entry points.

Locating Migration: Rescaling Cities and Migrants on JSTOR

"Locating Migration: Rescaling Cities and Migrants is an attempt to examine migrants as integral to cities through analyses of scale, space, and temporal phenomena in different places. The editors want to steer the study of migrants away from a narrow focus that has isolated ethnic communities and theorize the important role that migrants have had in shaping and being shaped by cities and the scale issues related to cities....
