With technology standards becoming increasingly common, particularly in the information and communications technology (ICT) sector, the complexities and contradictions at the interface of intellectual property law and competition law have emerged strongly. This book talks about how the regulatory agencies and courts in the United States, European Union and India are dealing with the rising allegations of anti-competitive behaviour by standard essential patent (SEP) holders. It also discusses the role of standards setting organizations / standards developing organizations (SSO/SDO) and the various players involved in implementing the standards that influence practices and internal dynamics in the ICT sector. This book includes discussions on fair, reasonable and non-discriminatory (FRAND) licensing terms and the complexities that arise when both licensors and licensees of SEPs differ on what they mean by "fair", "reasonable" and "non-discriminatory" terms. It also addresses topics such

as the appropriate royalty base, calculation of FRAND rates and concerns related to FRAND commitments and the role of Federal Trade Commission (FTC) in collaborative standard setting process. This book provides a wide range of valuable information and is a useful tool for graduate students, academics and researchers. This work was published by Saint Philip Street Press pursuant to a Creative Commons license permitting commercial use. All rights not granted by the work's license are retained by the author or authors.

The Importance Of Environmental Studies Cannot Be Disputed Since The Need For Sustainable Development Is A Key To The Future Of Mankind. Recognising This, The Honourable Supreme Court Of India Directed The Ugc To Introduce A Basic Course On Environmental Education For Undergraduate Courses In All Disciplines, To Be Implemented By Every University In The Country. Accordingly, The Ugc Constituted An Expert Committee To Formulate A Six-Month Core Module Syllabus For Environmental Studies. This Textbook Is The Outcome Of The Ugc S Efforts And Has Been Prepared As Per The Syllabus. It Is Designed To Bring About An Awareness On A Variety Of Environmental Concerns. It Attempts To Create A Pro-Environmental Attitude And A Behavioural Pattern In Society That Is Based On Creating Sustainable Lifestyles And A New Ethic Towards Conservation. This Textbook Stresses On A Balanced View Of Issues That Affect Our Daily Lives. These Issues Are Related To The Conflict Between Existing `Development Strategies And The Need For `Conservation . It Not Only Makes The Student Better Informed On These Concerns, But Is Expected To Lead The Student Towards Positive Action To Improve The Environment. Based On A Multidisciplinary Approach That Brings About An Appreciation Of The Natural World And Human Impact On Its Integrity, This Textbook Seeks Practical Answers To Make Human Civilization Sustainable On The Earth S Finite Resources. Attractively Priced At Rupees One Hundred And Fifteen Only, This Textbook Covers The Syllabus As Structured By The Ugc, Divided Into 8 Units And 50 Lectures. The First 7 Units, Which Cover 45 Lectures Are Classroom Teaching-Based, And Enhance Knowledge Skills And Attitude To Environment. Unit 8 Is Based On Field Activities To Be Covered In 5 Lecture Hours And Would Provide Students With First Hand Knowledge On Various Local Environmental Issues.

This book highlights the medical importance of and increasing global interest in herbal medicines, herbal health products, herbal pharmaceuticals, nutraceuticals, food supplements, herbal cosmetics, etc. It also addresses various issues that are hampering the advancement of Indian herbal medicine around the globe; these include quality concerns and quality control, pharmacovigilance, scientific investigation and validation, IPR and biopiracy, and the challenge that various indigenous systems of medicine are at risk of being lost. The book also explores the role of traditional medicine in providing new functional leads and modern approaches that can offer elegant strategies for facilitating the drug discovery process. The book also provides in-depth information on various traditional medicinal systems in India and discusses their medical importance. India has a very long history of safely using many herbal drugs. Folk medicine is also a key source of medical knowledge and plays a vital role in maintaining health in rural and remote areas. Despite its importance, this form of medicine largely remains under-investigated. Out of all the traditional medicinal systems used worldwide, Indian traditional medicine holds a unique position, as it has continued to deliver healthcare throughout the Asian subcontinent since ancient times. In addition, traditional medicine has been used to derive advanced techniques and investigate many modern drugs. Given the scope of its coverage, the book offers a valuable resource for scientists and researchers exploring traditional and herbal medicine, as well as graduate students in courses on traditional medicine, herbal medicine and pharmacy.

In Kerala, Vakkom Moulavi motivated Muslims to embrace modernity, especially modern education, in order to reap maximum benefit. In this process, he initiated numerous religious reforms. However, he held fairly ambivalent attitudes towards individualism, materialism and secularization, defending Islam

against the attacks of Christian missionaries.

This book details formulae-based, time-economic, and innovative learning techniques in chemistry, which serve to help students grow an interest in chemistry, and memorise specific aspects of the subject. It highlights the limitations of conventional methods and solves them in innovative ways. The volume also provides different chemical applications and problems, which will encourage students to solve multiple choice-type questions (MCQs), and highlights some attractive, free educational chemistry tools, which can be used in solving a number of different problems.

This book documents the history of Tamil cinema, one of the most colossal film industries in the world, and studies the major studios of Madras, the largest outside classical Hollywood in the private sector. It engages with five major studios of Madras—Modern Theatres, AVM, Gemini, Vijaya-Vauhini, and Prasad— through the origins of their founders, and explicates how their history influenced the narratives, genre, and ideology of the canonical films made in Madras studios, arguing for their lasting influence on Tamil cinema. Based on rare primary and secondary materials, and oral history, this book engages with Tamil cinema at the intersection of its industrial, cultural, and socio-political history to argue for its specificity in terms of its aesthetics and its belief in the potential of the medium to mobilize audiences for ideology, politics, and reflexivity.

Thiruvalluvar, the author of the Tamil treatise Thirukkural is considered to have lived sometime between 3rd century BC and 1st century AD. Thirukkural perhaps was a fitting reply to a host of conflicting and competing views that existed in Tamil speaking countries of the period on the right way of living, family, religion and governance, supported by various religions that reached the Tamil soil as well as those of indigenous ones and by philosophers who accompanied traders from far off countries. But unfortunately Thiruvalluvar himself did not give interpretation to his tersest couplets. The interpretations presented in 13th century and earlier, in spite of the noble intention and extraordinary scholarship of the interpreters, I am afraid, understated its universality. Several centuries later, claims and counterclaims were made by the proponents of different religions including Christianity and the latest from atheists. I tried to remove the guise and achieved considerable success in this attempt. Fresh interpretations, which I believe truthfully reflect the thought of Thiruvalluvar, are provided in this book for nearly 360 couplets out of 1330 couplets. This conviction stems from my fresh look at Thirukkural that successfully shed away all the contradictions and unacceptable and unviable constructs it had to live with through the earlier interpretation(s). Thirukkural consists of 133 chapters with 10 couplets in each chapter. Each chapter is a life skill coaching material. They show how to live a soul-evolving life in the three arenas namely family, work and love. A soul which achieves full evolvment through numerous reincarnations reaches puthezhir ulagam (celestial abode). Thank you for buying this book. Contact me if you may at prof_venkat1947@yahoo.co.in.
