managerial economics is an applied specialty of this branch. Macroeconomics deals with the performance, structure, and behavior of an economy as a whole. Managerial economics applies microeconomic theories and techniques to management decisions. It is more limited in scope as compared to microeconomics.

The theory says that a rational person thinks and acts rationally and optimally. He or she changes his or her behavior according to the incentives received. If the incentives are in the way of reward for the employee's performance then it turns out to be good incentive or in other words incentive in alignment with the goals of the company.
