Every year, millions of Americans transfer their finances to their children or other family members because they reach a point at which they can no longer manage them alone. For those who are about to start managing the finances of their parents, it is important to know exactly how to protect their assets, manage their taxes, and live up to their wishes. This book has been written to do just that, providing a comprehensive walkthrough of what you can expect and how to successfully handle your parents finances. To start, you must learn the basics of managing money that is not your own. You will be provided with a step-by-step chapter on how to keep track of funds, maintain the same accounting methods your parents have used for decades, and keep everything organized and separate from your own. You will learn how to evaluate sources of income including how to receive and manage Social Security, 401(k), and other retirement plans as payments are made. Additionally, you will learn how to balance their expenses, including a budgeting sheet to help you maintain the same level of expense they expect. You will learn how to budget accordingly, depending on where your parents are living and what their medical expenses might be. A chapter on insurance and medical coverage is included to help you understand how much money you can expect to set aside for these expenses and how much should be covered by programs such as Medicaid. Learn how to maintain housing for your parents as well, whether they are in assisted living or staying with you. A guide on how to talk to your parents about fraud and keep them away from potentially dangerous opportunities will make it easier for you to keep a handle on their finances without taking away their freedom. Dozens of men and women who have gone through this same situation, and also professional finance managers, have added their expertise to this book, providing firsthand accounts of how they were able to manage their own

Focus on Personal Finance is a brief, 14-chapter book, covering the critical topics in Personal Finance courses. This 4-color, paperback text is designed and written to appeal to a range of ages, life situations, and levels of financial literacy. A unique aspect of this text is its active approach. This text will not only get your students thinking about their current situation and financial goals, but also encourage them to put these in writing to use as a guide and revise over the course of their lives. New for this edition, sections are oriented around specific action-items for students. The more a student involves themselves in the assessments, exercises and worksheets provided, the more they will discover about their current habits and how to improve them for greater financial freedom. Students have many different financial goals, but none are more important than having a basic understanding of financial issues and peace of mind with regard to their decisions. The ultimate goal of Focus on Personal Finance is to get students to this point as a first step to achieving the many financial goals they have set for themselves.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Through the presentation of the Ten Fundamental Principles of Personal Finance, this text empowers students with the knowledge they need to successfully make and carry out a plan for their own financial future.
