"Maybe Days" is a straightforward look at the issues of foster care, the questions that children ask, and the feelings that they confront. A primer for children going into foster care, the book also explains in children's terms the responsibilities of everyone involved - parents, social workers, lawyers and judges.

Maybe Days: A Book for Children in Foster Care: Amazon.co ...

Maybe Days is a great introduction to the foster care system for children ages 4-10. The book depicts the often complex world of foster care in simple, clear, and realistic terms. It acknowledges how frustrating it can be to only have questions answered with "maybe" and not know what will happen next in life.

Maybe Days: A Book for Children in Foster Care by Jennifer ...

Maybe Days addresses the questions, feelings, and concerns these children most often face. Honest and reassuring, it also provides basic information that children want and need to know, including the roles of various people in the foster care system and whom to ask for help.

Introduces the people and procedures involved in foster care, and the feelings, reactions, and concerns of new foster children. Includes an afterword for caregivers.

Introduces the people and procedures involved in foster care, and the feelings, reactions, and concerns of new foster children. Includes an afterword for caregivers.

New and revised. Based on an ancient and beloved Zen fable, this story is about a wise girl who experiences a series of events that at first seem lucky (or unlucky) but then turn out to be quite the opposite. A bike disappears, but then she gets a new one. She hurts herself, but then she enjoys a nice day at home. For each incident, was what happened good luck? Maybe. Was it bad luck? Maybe. Or, perhaps the girl simply does not get caught up in the emotion of the moment, because she can never know what that event might lead to, good or bad . . .

Best-selling author Tim O'Brien shares wisdom from a life in letters, lessons learned in wartime, and the challenges, humor, and rewards of raising two sons. "We are all writing our maybe books full of maybe tomorrows, and each maybe tomorrow brings another maybe tomorrow, and then another, until the last line of the last page receives its period." In 2003, already an older father, National Book Award-winning novelist Tim O'Brien resolved to give his young sons what he wished his own father had given to him—a few scraps of paper signed "Love, Dad." Maybe a word of advice. Maybe a sentence or two about some long-ago Christmas Eve. Maybe some scattered glimpses of their rapidly aging father, a man they might never really know. For the next fifteen years, the author talked to his sons on paper, as if they were adults, imagining what they might want to hear from a father who was no longer among the living. O'Brien traverses the great variety of human experience and emotion, moving from soccer games to warfare to risqué lullabies, from alcoholism to magic shows to history lessons to bittersweet bedtime stories, but always returning to a father's soul-saving love for his sons. The result is Dad's Maybe Book, a funny, tender, wise, and enduring literary achievement that will squeeze the reader's heart with joy and recognition.

In the spirit of Ruth Hogan and Adriana Trigiani, bestselling British author Debbie Johnson

Where To Download Maybe Days A Book For Children In Foster Care

brings us the ultimate in “happy tears”: a heartfelt story about a woman seizing the chance to reconnect with her lost love. The truth changes everything. For years Jess believed that Joe—the father of her child and the only man she ever loved—had abandoned her during her greatest time of need. That belief nearly destroyed her. Seventeen years later, when cleaning out her mother’s house, Jess unpacks a box of cards and letters hidden in the attic and makes a discovery that changes everything about life as she knows it. Shaken but empowered, Jess—and her two stalwart best friends—set out on a remarkable journey to follow a set of faded postmarks around the world. Is Joe still alive? Does he know that Jess never forgot him? Maybe their love story isn’t over. Maybe one day they’ll find each other again...

Today, *Maybe* is a story about a little girl who is waiting for someone, a friend. She doesn't yet know who it will be. In a series of surprising and humorous encounters, several well-known characters of children's literature arrive at her door. But none of them are the one she is waiting for, and she graciously sends them all away. With her bird to keep her company and hope filling her heart, weeks and then months pass as she waits and waits. When there is a scratch at the door one night, certainty fills the little girl's heart, and she opens the door to discover true friendship is indeed worth waiting for.

In the tradition of *The Fault in Our Stars*, critically acclaimed author Melissa Kantor masterfully captures the joy of friendship, the agony of loss, and the unique experience of being a teenager in this poignant new novel about a girl grappling with her best friend's life-threatening illness. A person's whole life, she's lucky to have one or two real friends. Friends who are like family... For Zoe, that someone is Olivia. So when Olivia is diagnosed with leukemia, Zoe is determined to put on a brave face and be positive for her best friend. Even when she isn't sure what to say. Even when Olivia misses months of school. Even when Zoe starts falling for Calvin, Olivia's crush. The one thing that keeps Zoe moving forward is knowing that Olivia will beat this, and everything will go back to the way it was before. It has to. Because the alternative is too terrifying for her to even imagine.

When she discovers that her boyfriend is cheating on her, Sydney, a 22-year-old college student, must decide what to do next, especially when she becomes captivated by her mysterious neighbor Ridge. Original.

From the groundbreaking, bestselling author of *The End of Nature*, a controversial and provocative book arguing that to help the planet we should begin to voluntarily limit our numbers. Bill McKibben's books and essays on our environment -- physical and spiritual -- have shaped and spurred debate since *The End of Nature* was published in 1989. Then, he sounded one of the earliest alarms about global warming; the decade of science since has proved his prescience. Now, in *Maybe One*, he takes on the most controversial of environmental problems -- population. We live in a unique and dangerous time, he asserts, when the planet's limits are being tested and voluntary reductions in American childbearing could make a crucial difference. The father of a single child himself, McKibben maintains that bringing one, and no more than one, child into this world will hurt neither your family nor our nation -- indeed, it can be an optimistic step toward the future. *Maybe One* is not just an environmental argument but a highly personal and philosophical one. McKibben cites new and extensive research about the developmental strengths of only children; he finds that single kids are not spoiled, weird, selfish, or asocial, but pretty much the same as everyone else. McKibben recognizes that the transition to a stable population size won't be easy or pain-free but ultimately is inevitable. *Maybe One* provides the basis for provocative, powerful thought and discussion that will influence our thinking for decades to come.
