The must-read summary of Robert Kriegel's book: "How to Succeed in Business Without Working So Damn Hard: Rethinking the Rules, Reinventing the Game". This complete summary of the ideas from Robert Kriegel's book "How to Succeed in Business Without Working So Damn Hard" shows that it's possible to be more productive, create more profit and be happier by working less hours, but in a more direct way. This summary takes this principle and splits it into two guidelines: don't conform, but rethink the way you work, and don't compete against others. It also breaks down these principles into measures that every businessperson can apply. Exploit your strengths, for example, rather than trying to solve your weaknesses; make a serious effort to halve your number of meetings; look at business ideas outside of your industry, and think how they could be applied. In short, look carefully at your market's assumptions, and your personal ones, and challenge whether they are effective, could be done more quickly or need to be done at all. Added-value of this summary: • Save time • Understand the key concepts • Increase your business knowledge To learn more, read "How to Succeed in Business Without Working So Damn Hard" and discover how to work better, not harder.

Your dog deserves a "celebration of life" video. Here's how to video record your dog's life story or make a movie, DVD, training documentary, or Time Capsule starring your dog included in your intergenerational family. Learn to record your dog's life story. Nearly everybody uses a camcorder to make videos of the family dog or takes pictures and puts them in a scrapbook to remember a dog as part of a family. Put your videos on DVDs, Flash Drives, CDs, or save to your computer linked to your camcorder for editing. From the time you first bring home a new puppy, a "this is your life" video podcast or disc of your dog's memorable moments can become part of a family history video newsletter or keepsake heirloom album. Learn how to conserve, protect videos, diaries, scrapbooks, or photos in digital or acid-free paper scrap books. Produce a personal, family, or salable video starring you and your dog. If you want to make the video available to others, you'll find instruction here on how to write, finance, produce, distribute, publicize, launch, promote, and market salable dog documentaries that include intergenerational family video newsletters or videos that feature prominently dogs or any pet.

The human society has always been partial and exploitative, yet people contribute positively to society too, since people tend to interact in all manners throughout their fulfillment. And it is meaningful to learn how you influence the world too, and what you can do to help yourself, your loved ones, and the entire world. Would you like to learn the truth about the human society? Then study yourself and those around very well, since society is the direct and implicit interconnectivity of all human beings, with you in it. Therefore, you are the one defining society directly at least in everything concerning you, and this is the case with everybody. While everybody is relatively good intentioned in society, since we are very similar through our human nature and through all natural needs and meanings that we fulfill. There are many groups, cartels, ideologies and political parties spanning society today, good and bad, stating all laws and orders keeping you constrained under their command, and these define the human society and the human civilization. Yet this is the visible part of society, only a façade, because society is very vast, it is comprehensive in meaning, as it holds the entire human interconnectivity, both hidden and in the open, spanning far beyond what is well known and accepted today. While you can never understand society if you do not persevere to grasp its shadow, its hidden structure and its hidden activity, along with its covert social actors continuously plotting, many times against you. These are worth studying, since they define society more, and you may create in this manner an accurate, comprehensive model for the human society, as it really is. You may study society directly, since it is all around, or you may read a multitude of books of sociology, politics, and economics, to find them empirical, trivial, predictable, and full of propaganda, meant to mislead you and even indoctrinate you, while offering recycled knowledge that you already know. Why? Most of the human society is hidden, and it is meant to remain hidden. This is

why everything that you find defining and explaining society is trivial, erroneous, and misleading today, just take your evening news and political promises as an example. While you may want to understand exactly how everything happens in society, in the world and all around, why you and everyone else think and behave the way you do throughout life, why you and everybody else cannot get out of these continuous, rigid social loops already entraining the world, and most importantly, you want to know where everything leads, and on whose behalf. Because society alters your behavior more or less willingly, in order to fulfill its agendas. It induces fictitious beliefs in you, and many times, you cannot even identify them. While these invade your thinking, managing in this manner to define your life entirely. Then they change you slowly without your knowledge, and there is nothing that you can do. Because society confronts you directly, since its plans are well defined, ending up changing your life entirely, mostly when you remain unaware. Throughout this book, we study how life and human beings gather to form classes of life and societies meant to make life better, safer, more profitable, and more fulfilling. We understand the human society in its actual structure, characteristics, and tendencies, in all aspects and from all perspectives. We identify and understand the various modes of society that life and the environment may demand, and we recognize what is meaningful among orders, agendas, and conspiracies already implemented or threatening to take place in the world, who the main social actors are, and how determined they are in what they do in the human society. This helps you identify your own meaning in life, in society, and in the world, and how your meaning is enhanced or altered by your own behavior and interconnectivity within the human society.
