The science in Mini Habits exposes the predictably inconsistent results of most popular personal growth strategies, and reveals why mini habits are consistent. A mini habit is a very small positive behavior that you force yourself to do every day; a mini habit's "too small to fail" nature makes it weightless, deceptively powerful, and a superior habit-building strategy. Mini Habits will better equip you to change your life than 99% of the people you see walking around on this globe.
