historical study of the different forms of shamanism around the world written by the Romanian historian of religion Mircea Eliade. It was first published in France by Librairie Payot under the French title of *Le Chamanisme et les techniques archaïques de l'extase* in 1951. The book was subsequently translated into English by Willard R. Trask and published by Princeton University Press in 1964. At the time of the book's writing, Eliade had earned a PhD

### Shamanism Archaic Techniques Of Ecstasy

Chapters 8 and 13 are probably the most fascinating in the book. In Chapter 8, Eliade talks about shamanism and cosmology, saying that "the pre-eminently shamanic technique is the passage from one cosmic region to another - from earth to the sky or from earth to the underworld" [1951/1964: 259]. The author is a strong believer in the mystical experience, and, naturally, thinks that the soul of the shaman in ecstasy can fly up or down in the course of his celestial or infernal journeys.

Shamanism: Archaic Techniques of Ecstasy is a dense volume of incredibly intricate and detailed research of an extremely fine scholar into the field of religious anthropology. Such is the seriousness of its subject matter that it presents itself as an excellent tool for throwing at 'new-age' practitioners of spiritual bullshit.

~~Shamanism: Archaic Techniques of Ecstasy:  
Eliade, Mircea ...~~

If we are going to think seriously about shamanism, then we have to confront Mircea Eliade, whose famous book *Shamanism: Archaic Techniques of Ecstasy* has defined the terms of the discussion for more than fifty years. Yet the book is deeply flawed, and Eliade's approach has been subjected to compelling anthropological, historical, and feminist criticism.
