Detective Sergeant Mariko Oshiro has been promoted to Japan ' s elite Narcotics unit—and with this promotion comes a new partner, a new case, and new danger. The underboss of a powerful yakuza crime syndicate has put a price on her head, and he ' ll lift the bounty only if she retrieves an ancient iron demon mask that was stolen from him in a daring raid. However, Mariko has no idea of the tumultuous past carried within the mask—or of its deadly link with the famed Inazuma blade she wields. The secret of this mask originated hundreds of years before Mariko was born, and over time the mask ' s power has evolved to bend its owner toward destruction, stopping at nothing to obtain Inazuma steel. Mariko ' s fallen sensei knew much of the mask ' s hypnotic power and of its mysterious link to a murderous cult. Now Mariko must use his notes to find the mask before the cult can bring Tokyo to its knees—and before the underboss decides her time is up...

A one-stop reference for automotive and other engineers involved in vehicle and automotive technologies. The book provides essential information on each of the main automotive systems (engines; powertrain and chassis; bodies; electrical systems) plus critical external factors that engineers need to engage with, such as hybrid technologies, vehicle efficiency, emissions control and performance optimization. \* Definitive content by the leading authors in the field \* A thorough resource, providing all the essential material needed by automotive and mechanical engineers on a day-to-day basis \* Fundamentals, key techniques, engineering best practice and know-how together in one quick-reference sourcebook \* Focuses on what engineers need to know: engineering fundamentals, key associated technologies, environmental and efficiency engineering, and sustainability, as well as market-driven requirements such as reliability, safety, and comfort \* Accompanied by multi-body dynamics and tire dynamic modeling software

Nominated for the National Book Award, Barry Hannah ' s brilliant debut offers " a fresh angle on the great American subject of growing up " (John Updike). Rolling with love and torment, lunacy and desire, hilarity and tenderness, Geronimo Rex is the bildungsroman of an unlikely hero. Reared in gloomy Dream of Pines, Louisiana, whose pines have long since yielded to paper mills, Harry Monroe is ready to take on the world. Inspired by the great Geronimo ' s heroic rampage through the Old West, Harry puts on knee boots and a scarf and voyages out into the swamp of adolescence in the South of the 1950s and ' 60s. Along the way he is attacked by an unruly peacock; discovers women, rock ' n ' roll, and jazz; and stalks a pervert white supremacist who fancies himself the next Henry Miller in this " stunning piece of entertainment. . . vulgar, ribald, and wildly comic " (TheNew York Times). " Hannah writes about adolescence with a rare pizzazz and insight. " —Rolling Stone

&lt;Writings of Healing and Resistance: Empathy and the Imagination-Intellect is a multi-authored, interdisciplinary journey. It continues the work started in Public Education and the Imagination-Intellect (Peter Lang, 2003) by extending the importance of empathy in developing an action-based social consciousness. Mary E. Weems doesn't argue for a specific way of pursuing an empathy connected to mind, body, and spirit: She acknowledges that just as artists work in various media, each with their own process for sharing how they think and feel about a particular topic or moment, each individual may arrive in their own way at a deep, spiritual, close identification with the experiences of the other. &lt;Writings of Healing and Resistance encompasses a variety of forms: autoethnography, ethnodrama, poetic inquiry, and critical essay, as well as scholars' work in a number of disciplines including communications, cultural studies, sociology, anthropology, educational leadership, African American studies, and cultural foundations.

In museums across the world, Richard Nagler stationed himself in front of a piece of art he had chosen, waiting for someone to come along to photograph and complete his composition

A rare glimpse into the woman behind the mystique and the definitive guide to living genuinely with glamour and grace. " Living is like tearing through a museum. Not until later do you really start absorbing what you saw, thinking about it, looking it up in a book and remembering—because you can ' t take it all in at once. " —Audrey Hepburn On many occasions, Audrey Hepburn was approached to pen her autobiography, the definitive book of Audrey, yet she never agreed. A beloved icon who found success as an actress, a mother, and a humanitarian, Audrey Hepburn perfected the art of gracious living. More philosophy than biography. How to Be Lovely revisits the many interviews Audrey gave over the years, allowing us to hear her voice directly on universal topics of concern to women the world over: careers, love lives, motherhood and relationships. Enhanced by rarely seen photographs, behind-the-scenes stories, and insights from the friends who knew her well, How to Be Lovely uncovers the real Audrey, in her own words.

Trans world fishing team was formed in 1974. Its objective was to seek out the largest freshwater fish in the world. Their first expedition in 1977 was to India in search of the Mahseer The legendary lion fish of Asia and supposedly extinct. This book is about the expedition: from its conception to its climax, from England to India and from Mahseer's supposed extinction to its re-statement as India's Premier sporting fish.
