

Monotonic Cubic Spline Interpolation Univie

Yeah, reviewing a ebook **monotonic cubic spline interpolation univie** could be credited with your near associates listings. This is just one of the solutions for you to be successful. As understood, finishing does not recommend that you have extraordinary points.

Comprehending as capably as arrangement even more than additional will pay for each success. adjacent to, the revelation as skillfully as acuteness of this monotonic cubic spline interpolation univie can be taken as capably as picked to act.

In the mathematical field of numerical analysis, monotone cubic interpolation is a variant of cubic interpolation that preserves monotonicity of the data set being interpolated. Monotonicity is preserved by linear interpolation but not guaranteed by cubic interpolation .

Monotonic cubic spline interpolation. Abstract: This paper describes the use of cubic splines for interpolating monotonic data sets. Interpolating cubic splines are popular for fitting data because they use low-order polynomials and have $C/\sup 2/$ continuity, a property that permits them to satisfy a desirable smoothness constraint.

~~Monotone cubic Hermite interpolation~~

This function computes a cubic spline or sub-spline s which interpolates the (x_i, y_i) points, ie, we have $s(x_i) = y_i$ for all $i = 1, \dots, n$. The resulting spline s is completely defined by the triplet (x, y, d) where d is the vector with the derivatives at the x_i : $s'(x_i) = d_i$ (this is called the Hermite form). The evaluation of the spline at some points must be done by the `interp` function.
