Data Science is booming thanks to R and Python, but Java brings the robustness, convenience, and ability to scale critical to today's data science applications. With this practical book, Java software engineers looking to add data science skills will take a logical journey through the data science pipeline. Author Michael Brzustowicz explains the basic math theory behind each step of the data science process, as well as how to apply these concepts with Java. You'll learn the critical roles that data IO, linear algebra, statistics, data operations, learning and prediction, and Hadoop MapReduce play in the process. Throughout this book, you'll find code examples you can use in your applications. Examine methods for obtaining, cleaning, and arranging data into its purest form Understand the matrix structure that your data should take Learn basic concepts for testing the origin and validity of data Transform your data into stable and usable numerical values Understand supervised and unsupervised learning algorithms, and methods for evaluating their success Get up and running with MapReduce, using customized components suitable for data science algorithms

A programmer's complete guide to Visual Basic .NET. Starting with a sample application and a high-level map, the book jumps right into showing how the parts of .NET fit with Visual Basic .NET. Topics include the common language runtime, Windows Forms, ASP.NET, Web Forms, Web Services, and ADO.NET.

Family, friendship, and inner beauty are all part of the heart stopping finale of The Shifter Prophecy series. USA Today Bestselling Author Megan Linski's ending to a paranormal romance saga full of strong heroines, Alpha males, and magic will leave readers laughing and in tears during the final book of a young adult fantasy collection for this generation.

Ferrari Fever is a fascinating and nostalgic look back at the classic car collecting scene in the 60's and 70's, an era when some of the rarest and most interesting Italian automobiles could still be found hidden or languishing in barns, junkyards or by the side of the road...almost lost in time. Paul Schouwenburg s story begins in wartime occupied Amsterdam, a poignant backdrop to the hardships of the years to follow, when the appearance of any exotic Italian thoroughbred was a rare sight indeed. Fuelled by a fascination for all things mechanical, adventures on a Rudge bicycle and early experiences in his parents succession of Rovers, Paul gains a burning passion for finding, restoring, and ultimately racing Italian cars. But these were not just any Italian cars -from the early 60s onwards, he begins to uncover several rare Alfas, from 1900CSS Zagato to Tipo 33/2, in addition to a host of very special Ferraris, including a 250GTO, 340 America Touring, 250 MM Vignale Berlinetta, 250GT SWB Competition/61 and 275GTB/C/LM, usually by word of mouth or tenuous rumour. Having acquired them, often many different models at a time, he would drive them home across Europe through snow storms, and restore them single-handedly in his spare time, full-time job as a world-leading head and neck cancer surgeon permitting! If that wasn t exciting enough, he would then race them, often winning, before moving on to the next irresistible project. Filled with rich anecdotes and rare insights into the colourful characters of the day, including Jacques Swaters and Rob de la Rive Box, Paul s passion and incredible drive make for exciting reading. Indeed this is a unique take, a look in the rear view mirror at a bygone era when gems could be found incredibly cheaply and enthusiasts took seat-of-the-pants decisions regarding many aspects of a hobby which was uncharted, innocent and simply not as commercial as today he couldn t even give away his 250 GTO at the time!

A concise exploration of globalization and its role in the contemporary era Driven by technological advancements and global corporations, more and more people are swept up by globalizing processes, creating new winners and losers. Globalization: The Essentials explores the flows, structures, processes, and consequences of globalization in the modern economic, political, and cultural landscape. This comprehensive introduction offers balanced coverage of areas such as global economic and cultural flows, environmental sustainability, the impact of technology, and racial, economic, and gender inequality – providing readers with foundational knowledge of globalization. Extensively revised and updated, this second edition includes expanded coverage of human trafficking and migration, global climate change, fake news and information wars, and transnational social movements with increased emphasis on examples from Central and South America, Africa, and Asia: Offers a straightforward approach to the multiple facets of globalization and their positive and negative influences on contemporary society Employs unique metaphors and a coherent narrative structure to promote intuitive understanding of abstract concepts Introduces cutting-edge research, updated statistics, and real-world examples in areas such as rising global populism, social justice movements, blockchain technology, and cryptocurrencies Provides an efficient and flexible pedagogical structure, allowing integration with instructor's own course material Emphasizing student comprehension, a wide range of source material is incorporated including empirical research, relevant theories, newspaper and magazine articles, and popular books and monographs. Examples of current research and recent global developments, such as emerging economies and global health concerns, encourage classroom discussion and promote independent study. Globalization: The Essentials – a compact edition of the authors' full-sized textbook Globalization: A Basic Text – provides concise coverage of the central concepts of this dynamic field. Offering a multidisciplinary approach, this textbook is an invaluable primary or supplemental resource for undergraduate study in any social science field, as well as coursework on economics, migration, inequality and stratification, and politics.
