5 FREE resources for MRCP Parts 1 & 2 Written **u0026** UKdoctoronFIRE

I used Pastest for Part 2 written - it's got about 30 of the past papers and ~2,400 questions to work through. I used it (among others) for part 1 and found it bore the most similarity to the exam with about a third of the questions ones that I'd seen before when I sat the exam but for part 2 it seemed that the questions in the exam were harder than those I'd practised with only 1 or 2 out of ...

2021 MRCP Preparation Revisions | Pass-MRCP

MRCP Part-2 Written is one of the toughest exam among all the steps of MRCP exam and knowing the previous questions are helpful because questions are made based on the most important topics that more than 20-30% are repeated in different diets.

This book provides a bank of multiple-choice questions for candidates preparing for Part 2 of the Membership examination of the Royal Colleges of Physicians, the MRCP. The questions are arranged by subject area to enable structured revision and allow candidates to focus on particular areas where they feel less confident. The book has been written with a close focus on recent examinations, with the coverage of topics weighted to reflect the frequency with which they have appeared. The book is structured more as a manual than as a mock exam, and includes explanations for both correct and incorrect answers, focusing comprehensively on the fundamental principles of medical practice. As well as candidates for the MRCP, this book will also be of interest to medical students and students of related health sciences.

Featuring a wealth of practice questions, MRCP PART 2: 450 BOFs allows trainees to test themselves on everything they need to know to pass the MRCP Part 2 written exam.

This book provides MRCP candidates with over 100 illustrated questions and explanatory answers, in the style of the new exam. Cases and the subsequent discussion points have been carefully selected to optimise learning and revision. The main author, Dr Huw Beynon, has now taught a generation of doctors. His books are renowned amongst MRCP candidates for providing carefully chosen, challenging and stimulating material. The second author, Dr Luke Gompels, has taken the MRCP examination recently enough to be familiar with its pitfalls, thus ensuring that these pearls of wisdom will be passed on to yet more candidates hungry for MRCP success. - A thorough and up-to-date collection of illustrated 'best of five' questions - Aimed at MRCP Part 2 (written) exam - Detailed explanatory answers - useful for revision of specific topics - Full colour illustrations throughout - to show clinical features - All questions in the new 'best of five' format - Larger, more attractive page size - Attractive new format; clear style and colourful presentation

Finding the time to revise effectively is one of the greatest challenges that modern MRCP candidates face. This unique book by a recent successful candidate provides precisely what many have needed but been unable to find until now: the distilled essential knowledge required to pass the MRCP Part 2 exam. This book provides candidates with a concise and well-directed approach to fast and efficient revision, supplying comprehensive coverage of the MRCP syllabus and the key points of each topic. It stands apart from other MRCP revision resources in supplying both concise text and the essential lists needed to pass the Part 2 exam.

This pack offers a comprehensive and trustworthy solution to anybody wishing to sit, pass, and excel at the Membership of the Royal College of Physicians Part 2 examination.

For the MRCP Part 2 exam, candidates need to be able to interpret radiological images of commonly encountered conditions. They also increasingly need to be able to answer other questions about the condition shown in the image, for example treatment and prognosis. This book has been designed to meet that need. It is divided into five sections: chest, abdomen, nervous system, cardiovascular system and musculoskeletal system. Each condition described is illustrated by one or two high quality radiological images and then provides a concise but holistic view of the condition, with all the important aspects of disease that the candidate will be expected to know. This information is supplemented by a short series of example exam questions.

This book is an invaluable resource with 400 self-assessment cases and data interpretation questions covering all aspects of internal medicine. It has great breadth of coverage, superb illustration, lively presentation, precise answers and detailed discussion.

This book is the essential revision guide for neurology in the Membership of the Royal College of Physicians (MRCP). Neurology has been rated as the most difficult subject in MRCP examinations and there has been no concise and easy-to-use revision guide to help candidates through the exams until now. Neurology for MRCP is written by two experienced neurologists who have taught both the written (Part 1 and Part 2) and clinical (PACES) sections of the exam. This pioneering new book will also be useful for medical students sitting for their final examinations and for doctors who are preparing for the PLAB examination.

Designed to help medical students through their exams. Built around the successful 'Essential Revision Notes for MRCP', this title focuses on what is essential learning for medical undergraduates and gives readers an 'all round' knowledge of medicine at this level.

This book of 250 best of five questions, focusing on data interpretation and case histories, is a title in the best-selling series The Complete MRCP, regarded as one of the most authoritative sources of self-assessment material for the MRCP written examinations. A thorough and up-to-date collection of best of five questions for the MRCP Part 2. One of the best-selling The Complete MRCP series - widely regarded as the best revision books for the exam. Detailed answers which are useful as revision topics. The questions have been fully updated into the new format of the exam. A significant number of new topics have been added. All questions reformatted for the new exam. Fully revised and updated. A new author team - written by people who really know what the exam is like.
