Resource leveling can help project managers resolve

overallocations by delaying or splitting up tasks. Depending on your project, you may want to level at different intervals. Here's how to make...

~~Deciding when to use resource leveling in Microsoft Project~~

# Read Book Ms Project Manual

Microsoft defines resource leveling as "the act of taking a project with people assigned to a bunch of tasks, and making it so that they don't have to work overtime." Even they admit that this might be a bit oversimplified, but that is it in a nutshell.
