~~Read along with National Geographic! The events of September 11, 2001, changed the world forever. With compelling photographs and sensitive, age-appropriate text, this Level 3 reader recounts the shocking attacks at the World Trade Center, the Pentagon, and in Pennsylvania, explains who was behind the attacks, and celebrates the spirit of hope that emerged through the inspiring story of rescue and recovery and the heroes who raced to save lives.National Geographic Readers' combination of expert-vetted text and fascinating images, along with an engaging approach to reading, has proved to be a winning formula with kids, parents, and educators. Level 3 text provides accessible, yet wide-ranging information for fluent readers. Each reader includes text written by an experienced, skilled children's books author, a photo glossary, and interactive features in which kids get to reinforce what they've learned in the book.~~

~~Every year like clockwork, animals both big and small are driven by a natural instinct to move, in order to survive. On both land and sea, they fight the odds and the forces of nature to breed, feed, or lead and carry on for future generations. This reader is an introduction to the treacherous trek of the zebra, walrus, and Christmas Island red crab to overcome obstacles that include hungry cheetahs, stinging yellow crazy ants, and even their fellow species to make the often impossible journey of their lives. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeood.org/commoncore for more information.~~

~~Provides information about the Earth's water, including rivers, lakes, oceans, the water cycle, climate, water pollution, and conservation.~~

~~Discover the coolest robots of today and tomorrow in this colorful, photo-packed book. In this inviting and entertaining format, kids will learn about the science behind these amazing machines. Written in an easy-to-grasp style to encourage the scientists of tomorrow!~~

~~Explores some of the world's mightiest man-made structures, and how they were designed and built.~~

This title is replete with brilliant photographs and exclusive in-depth coverage including Bob Ballard's 1985 discovery.
