The A-904 and A-727, debuting in 1960 and 1962, respectively, are 3-speed automatic Chrysler TorqueFlite Transmissions. In Mopar circles, they have become synonymous with strength, durability, and performance. In fact, 43 years after its first application, A-904s were still found in the Jeep lineup! TorqueFlites are known for their dependability, but many have endured a tremendous amount of abuse over 50-plus years when hooked up to V-8 Mopar powerplants. There is little doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of experience rebuilding TorqueFlite transmissions with chapters dedicated to troubleshooting, disassembly and reassembly, performance modifications, post-installation procedures, and the most thorough source guide offered in print, ever. The author walks you through the TorqueFlite rebuild with color photos showcasing step-by-step procedures with highly detailed, easy-to-follow text. This book will keep money in your pocket and add experience to your résumé, but more important, it will help you get your Mopar back on the road! p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

This book offers a rich ethnographic account of blue-collar workers' everyday life in a central Russian industrial town coping with simultaneous decline and the arrival of transnational corporations. Everyday Post-Socialism demonstrates how people manage to remain satisfied, despite the crisis and relative poverty they faced after the fall of socialist projects and the social trends associated with neoliberal transformation. Morris shows the 'other life' in today's Russia which is not present in mainstream academic discourse or even in the media in Russia itself. This book offers co-presence and a direct understanding of how the local community lives a life which is not only bearable, but also preferable and attractive when framed in the categories of 'habitability', commitment and engagement, and seen in the light of alternative ideas of worth and specific values. Topics covered include working-class identity, informal economy, gender relations and transnational corporations.
