"Old Soldier Sahib" is the memoir of a coal mining Welshman turned soldier at the turn of the twentieth century. As a book, it is written from a fascinating perspective that is nearly lost to history, that of a working class private.

"OLD SOLDIER SAHIB" was written by Frank Richards as a follow-up to his widely acclaimed First World War memoir "Old Soldiers Never Die." Richards shares with the reader some aspects of his early life leading up to his enlistment in the British Army in 1901 during the waning days of the Boer War.

Remarkable autobiography of a private soldier in the British Army. Frank (Dick) Richards served the colors from 1906 to 1912 spending most of his time in India. His narrative style is simple and straightforward with no pretense or literary flourishes, but the story he tells and the anecdotes he shares are priceless and not just for their rarity.

After reading 'Old soldiers never die', another excellent read, I decided to read 'Old Soldier Sahib' and I wasn't disappointed. How can I describe the book, it's a mixture between a soldiers memoirs and a mix of military/social history.
