other technical staff, particularly in smaller companies. User guides are most commonly associated with electronic goods, computer hardware and software, although they can be written for any product. Most user guides contain

User guide - Wikipedia

An operations manual is the backbone of your company – the encyclopedia for your business. Your employee handbook may introduce your team to your mission, various policies (benefits, holiday leave, security), and culture, but the operations manual will show them how to do their job and give them everything they need to do it.

How to Create an Operations Manual for Your Business (and
