## **List of Caterpillar serial number prefix codes - Tractor ...**

The Service part number will not change with the Engineering part number unless the change affects interchangeability. Due to this the part numbers on the part are generally Engineering numbers and the Service part number will be on the box. There are some exceptions, such as a whole grouping of parts or a kit. Engineering and Service numbers decode the same way. The difference is the 4th character of the prefix. Part numbers consist of a;
