In celebration of the approaching 21st century, the author joined the 46-foot ketch Hornblower II in a 'round-the-world rally. The British-sponsored Millennium Odyssey started in 1998 with a flame-lighting ceremony in the Old City of Jerusalem and ended on Easter Day 2000 at the Vatican. There, rally organizer Jimmy Cornell presented Pope John Paul II a lantern with the flame carried around the world from the Church of the Holy Sepulchre. The author recounts his east-west voyage along the "coconut milk run" through the Panama Canal, across the Pacific, Indian, and South Atlantic oceans, then back to the Caribbean and Florida. Along the way, he reflects on the marine ecosystem, globalization, and the history of exploration starting with Marco Polo, Ibn Battuta, Zheng He, Magellan to Cook.

Ideal for students, entry-level technicians, and experienced professionals, the fully updated Sixth Edition of MEDIUM/HEAVY DUTY TRUCK ENGINES, FUEL & COMPUTERIZED MANAGEMENT SYSTEMS is the most comprehensive guide to highway diesel engines and their management systems available today. The new edition features expanded coverage of natural gas (NG) fuel systems, after-treatment diagnostics, and drive systems that rely on electric traction motors (including hybrid, fuel cell, and all-electric). Three new chapters address electric powertrain technology, and a new, dedicated chapter on the Connected Truck addresses telematics, ELDs, and cybersecurity. This user-friendly, full-color resource covers the full range of commercial vehicle powertrains, from light- to heavy-duty, and includes transit bus drive systems. Set apart from any other book on the market by its emphasis on the modern multiplexed chassis, this practical, wide-ranging guide helps students prepare for career success in the dynamic field of diesel engine and commercial vehicle service and repair. NEW YORK TIMES BESTSELLER • For anyone who wants to see how today's best and brightest got it right, got it wrong, and came out on top. What was the tipping point for Malcolm Gladwell? What unscripted event made Meryl Streep who she is? In this inspiration-packed book, Katie Couric reports from the front lines of the worlds of politics, entertainment, sports, philanthropy, the arts, and business—distilling the ingenious, hard-won insights of leaders and visionaries, who tell us all how to take chances, follow our passions, cope with criticism, and, perhaps most important, commit to something greater than ourselves. Among the many voices to be heard here are financial guru Suze Orman on the benefits of doing what's right, not what's easy; director Steven Spielberg on listening rather than being listened to; quarterback Drew Brees on how his (literal) big break changed his life; and novelist Curtis Sittenfeld on the secrets of a great long-term relationship (she suggests marrying someone less neurotic than you); not to mention: • Michael Bloomberg: "Eighty percent of success is showing up . . . early." • Eric Stonestreet: "Remember that the old lady who's taking forever in line is someone's grandma." • Joyce Carol Oates: "Read widely—what you want to read, and not what someone suggests that you should read." • Jimmy Kimmel:

“When in doubt, order the hamburger.” • Apolo Ohno: “It’s not about the forty seconds; it’s about the four years, the time it took to get there.” • Madeleine K. Albright: “Never play hide-and-seek with the truth.” Along the way, Couric reflects on the good advice—and the missteps—that have guided her from her early days as a desk assistant at ABC to her groundbreaking role as the first female anchor of the CBS Evening News. She reveals how the words of Thomas Jefferson helped her deal with her husband’s tragic death from cancer, and what encouraged her to leave the security of NBC’s Today show for a new adventure at CBS. Delightful, empowering, and moving, *The Best Advice I Ever Got* is the perfect book for anyone who is thinking about the future, contemplating taking a risk, or daring to make a leap into the great unknown.
