What Are Natural

Resources? -

Definition & Types -

Video ...

Natural resources

can be classified

into various ways.

Mainly they are

divided into two

categories viz.

Abiotic (or physical

Get Free

Physical

resources) and

biotic resources.

The biotic

resources consists

of plants, animals

and micro

organisms whereas

the abiotic

resources include

non living materials

such as soil, land,

metals, water and

minerals.

INTRODUCTION TO

NATURAL

RESOURCES -

Follow Green Living

Natural science is a

branch of science

concerned with the

description,

prediction, and

understanding of

natural

phenomena, based

on empirical

evidence from

Get Free

Physical

Observation and
experimentation.

Mechanisms such
as peer review and
repeatability of
findings are used
to try to ensure the
validity of scientific
advances. Natural
science can be
divided into two
main branches: life
science and
physical science.

Get Free

Physical

Science is alternatively known as biology, and physical science is subdivided into branches:
