is understudied, both inside and outside of government. Tactical weapons, although less awesome than their strategic siblings, carry significant security and political risks, and they have not received the attention that is commensurate to their importance. Second, it is clear that whatever the future of these arms, the status quo is unacceptable. It is past the time for NATO to make more resolute decisions, find a coherent strategy, and formulate more definite plans about its nuclear status. Consequently, decisions about the role of nuclear weapons within the Alliance and the associated supporting analysis are fundamental to the future identity of NATO. At the Lisbon Summit in Portugal in November 2010, the Alliance agreed to conduct the Deterrence and Defense Posture Review (DDPR). This effort is designed to answer these difficult questions prior to the upcoming NATO Summit in May 2012.

Childhood legends, ghost stories and cautionary tales take on a life of their own when surrounded by the Mists of Ravenloft. From the immortal creature destined to eternal wandering to the sinister tailor known as Scissorman, from the family whose members all have dark secrets to a wedding night shattered by horror and the house that relives the atrocity at its core, five stories of classic terror become a setting for bold adventurers - or helpless victims.

This workbook is designed for a child to work through with an adult. Unlike other books, its content and layout are devised for children who read, think and process information differently. The first part is a theoretical introduction. The second part is a series of worksheets through which the child creates a unique book about themselves.

This rift is known as the Worldwound, and through it, the demon horde has infested an entire region. While the demon armies have been held in check by barbarians and crusaders alike, the region within that was once Sarkoris is now ruled by fiends. Worse, the Worldwound itself is slowly growing - if something isn't done to halt this blight, it and the demons it spawns may one day swallow all of Golarion! This Pathfinder sourcebook explores the demon-blighted land of the Worldwound (site of the new Wrath of the Righteous Adventure Path) in great detail. Ruined cities (such as the shattered capital city of Iz, the frozen city of Dyinglight, and the river city of Undarin), key historical sites (like the Circle of the Hierophants - birthplace of the druidic sect known as the Green Faith), and more are presented, along with an exhaustive examination of the strange and otherworldly hazards of the region. The book also includes several adventure sites ready for exploration, along with a few locations like the holdout town of Gundrun, which can serve heroes as (relatively) safe harbor in a deadly land. Finally, an extensive bestiary presents more than a dozen new monsters and demons and enemy NPCs along with two new monster templates, ensuring your PCs will never lack for foes in this devastated realm.
