you're working with string methods or built-in functions in Python, this Cheat Sheet helps you program the correct order for the operation so you achieve the correct result.

Online Library Python For

Python For Dummies Cheat Sheet - dummies

The simplest data collection in Python is a list. A list is any list of data items, separated by commas, inside square brackets.

Typically, you assign a name to

Online Library

Python For

Dummies
Filetype

the Python list using an = sign, just as you would with variables. If the list contains numbers, then don't use quotation marks around them.

Python - dummies
