Abstract This

chapter essentially

consists of an

introduction to

what the handbook

is mainly about. It

discusses why

green building and

sustainability are

important to

Online Library

Refrigerant

building

construction, and  
why the

environmental

impacts of LEED

have dramatically  
impacted how

many contractors  
and their

subcontractors

today operate.

## Refrigerant

reclamation—

Wikipedia

A refrigerant is a substance or mixture, usually a fluid, used in a heat pump and refrigeration cycle. In most cycles it undergoes phase transitions from a liquid to a gas and back again. Many working fluids have

# Online Library Refrigerant

been used for such purposes.

Fluorocarbons, especially chlorofluorocarbons, became

commonplace in the 20th century, but they are being phased out because of their ozone depletion effects. Other common
