Figure 1. View of the male reproductive system. During erection, parasympathetic neurons stimulate dilation of the arteries that deliver blood to the corpus cavernosa and spongiosum. As a result, blood collects in these blood vessels and causes the penis to begin to become erect. The developing erection also constricts the exiting veins of the penis.

Reproductive System Study Guide PDF. PDF study guide of the reproductive system. Includes vocabulary, labeled diagrams, and if appropriate, microscope slides. Can be used for lecture exams and laboratory practicals. Based off of McKinley, O'Laughlin, and Bidle's 3e text for A&P I-II. Preview 2 out of 5 pages.

## Reproductive system study guide pdf - Anatomy & Physiology ...

Each testis has a white fibrous capsule called the tunica albuginea. Connective tissue septa divide the testis into lobules. Each lobule contains one to two seminiferous tubules where sperm are produced. Interstitial (Leydig) cells cluster between the seminiferous tubules and are the source of testosterone.
