Methods in Sociolinguistics ...

In general, methods, specific to sociolinguistics as a linguistic discipline, can be divided into three groups: methods of collecting material, methods of its processing and methods for assessing the reliability of the data obtained. The first group is dominated by methods borrowed from sociology, social psychology and partly from dialectology, in the second and third - a significant place is occupied by methods of mathematical statistics.

METHODS OF SOCIOLINGUISTICS - Sociolinguistics

That will lead to an overview of the types of theory that sociolinguistics has aligned with to date, and might profitably align with in the future. This is a necessary debate in itself, especially if it is right to observe that
