A Review of the Literature on Teaching Academic English to English Language Learners Patricia A. DiCerbo, Kristina A. Anstrom, Lottie L. Baker, and Charlene Rivera Review of Educational Research 2014 84 : 3 , 446-482

~~A Review of the Literature on Teaching Academic English to ...~~

Abstract. This review examines current research on teaching English Language Learners (ELLs) in four content area subjects: History, math, English, and science. The following topics are examined in each content area: The linguistic, cognitive, and sociocultural features of academic literacy and how this literacy can be taught; general investigations of teaching; and professional development or teacher education issues.

Ultimately, one of the main benefits of content-based language teaching is its ability to encourage students to make connections between second-language study and the outside world. This, in turn, can increase motivation and reinforce learning across the curriculum.

~~A Review of the Literature on Second Language Learning~~

Borg (2003) reviewed 64 works in the field of foreign and second language teaching and concluded there are a lot of differences in teachers' beliefs about language education. He continued that brave teachers believe grammar should be taught by explicit instruction while less experienced teachers tended to teach grammar implicitly.

~~English and Teaching English as a Foreign Language (TEFL ...~~

English Medium Instruction (EMI) refers to the use of the English language to teach academic subjects (other than English itself) in countries where the first language of the majority of the population is not English. Currently, the world is seeing a boom in EMI as an educational model in universities, secondary schools and even primary schools; however the implications of this growing trend remain severely under-researched.

~~English as a Medium of Instruction~~

Abstract. This paper provides a review of the research related to the use of blended learning in English as a second/foreign language context. Blended learning is a relatively new field that combines traditional teaching approaches with distance and online learning. The use of blended learning has been emphasized by the recent research that examines the academic and social benefits of this teaching approach.
