Welcome to Rutland Road Christian Fellowship. We are a small friendly church that is based in Bedford town centre, putting Jesus at the centre of our church. What to expect. Our Sunday morning service 'Worship for All' usually lasts for roughly an hour with a group for children, and breaking of bread every week. When the service ends we encourage people to stay where there will be tea and ...

One would be challenged to find a railroad to compare scenically and historically with the Rutland Railroad. With Yankee persistence, it struggled for its existence in the snows of Vermont and northern New York for more than one hundred years. Running through territory amply covered by larger and stronger lines, it survived bankruptcy, receivership, flood, unequal competition, seizure, depression, and strikes. Its vestigial remains operate in a small area to this day. Jim Shaughnessy—award-winning railroad photographer and authority—discusses the Rutland's entire history thoroughly, from preconstruction in 1831 to the present. In this updated edition, the author covers the history of the three lines that continued to operate after the demise of the Rutland Railroad—the Vermont Railway, the Green Mountain Railroad, and the Ogdensburg Bridge and Port Authority. Lavishly illustrated with more than 500 incomparable photographs (including those by railroad photographer Philip R. Hastings), The Rutland Road has other features for the railroad enthusiast and historian alike: maps, charts, reproductions of advertisements, a detailed index with engine rosters, a chronology of the Rutland Railroad, and other significant statistical information.

Rutland Street is a project that explores the ways in which education can help develop human's innate abilities and the importance of this concept to the educational needs of the disadvantaged. The book consists of a recording of the valuable experience gained during pre-school and junior school of the subject children between the ages of 3 to 8, who belong to a poor family. The text provides a background of the Bernard van Leer Foundation, which is the initiator of the project. The description of the geographical location of the project site as well as the history of the location and its residents are given. The planning of the project is explained. The background and implementation of the educational program that will be used for the project is discussed in detail. Another program is initiated to include the adults of the area in the development of the Rutland Street project. The book is an interesting read for people concerned with humanitarian projects and for educators, students, and researchers in the field of sociology.
