Beyond Sound is a must-read for anyone who loves music technology and wants to build a career in this competitive, fast-paced world. Author Scott L. Phillips draws on his seventeen-year career as a technology trainer and educator, and his extensive network of music technology professionals, to present an intimate view of the exciting world of music technology. The book offers an in-depth consideration of music technology education, including looks at specific programs and a clear explanation of different types of degrees. Moreover, it provides practical guidance on career preparation, including how to get a great internship, how to land that first job, and how to make connections and move up in a variety of businesses from recording to television and film to video games. And Phillips brings stories from successful professionals, who share their experiences, advice, and suggestions.

From the acclaimed Booker Prize-winning author comes a dazzling novel of family, love and love's disappointments Anna's aged mother is dying. Condemned by her children's pity to living, subjected to increasingly desperate medical interventions, she turns her focus to her hospital window, through which she escapes into visions of horror and delight. When Anna's finger vanishes and a few months later her knee disappears, Anna too feels the pull of the window. She begins to see that all around her, others are similarly vanishing, yet no one else notices. All Anna can do is keep her mother alive. But the window keeps opening wider, taking Anna and the reader ever deeper into an eerily beautiful story of grief and possibility, of loss and love and orange-bellied parrots. Hailed on publication in Australia as Richard Flanagan's greatest novel yet, The Living Sea of Waking Dreams is a rising ember storm illuminating what remains when the inferno beckons: one part elegy, one part dream, one part hope.
