nonostante le cicatrici che ne deturpano il volto, è considerata uno splendore dai Lunari, anche più della regina Levana, la sua matrigna. Winter, poi, disprezza la sovrana con tutta se stessa, anche perché sa che la donna non approverà mai i suoi sentimenti per il bel Jacin, amico d'infanzia nonché guardia del palazzo. Ma Winter non è la fragile creatura che Levana pensa che sia. Infatti, la ragazza ha l'occasione di privarla del suo potere. E ora, grazie all'aiuto della cyborg Cinder e delle sue alleate, le viene offerta la possibilità concreta di dare inizio a una rivoluzione che rovesci la sovrana e ponga fine così alla guerra che infuria ormai da tanti, troppi anni. Riusciranno Cinder, Scarlet, Cress e Winter a sconfiggere Levana e a trovare ognuna il proprio lieto fine? In questo ultimo volume delle "Cronache lunari", Marissa Meyer costruisce un finale mozzafiato che di certo non deluderà i tanti fan della serie.

Cinder è abituata alle occhiate sprezzanti che la sua matrigna e la gente riservano ai cyborg come lei, e non importa quanto sia brava come meccanico al mercato settimanale di Nuova Pechino o quanto cerchi di adeguarsi alle regole...

From the award-winning author of *The Feral Detective* and *Motherless Brooklyn* comes an utterly original post-collapse yarn about two siblings, the man that came between them, and a nuclear-powered super car. *The Arrest* isn't post-apocalypse. It isn't a dystopia. It isn't a utopia. It's just what happens when much of what we take for granted—cars, guns, computers, and airplanes, for starters—quits working. . . . Before the Arrest, Sandy Duplessis had a reasonably good life as a screenwriter in L.A. An old college friend and writing partner, the charismatic and malicious Peter Todbaum, had become one of the most powerful men in Hollywood. That didn't hurt. Now, post-Arrest, nothing is what it was. Sandy, who calls himself Journeyman, has landed in rural Maine. There he assists the butcher and delivers the food grown by his sister, Maddy, at her organic farm. But then Todbaum shows up in an extraordinary vehicle: a retrofitted tunnel-digger powered by a nuclear reactor. Todbaum has spent the Arrest smashing his way across a fragmented and phantasmagorical United States, trailing enmities all the way. Popping back into the siblings' life with his usual odious panache, his motives are entirely unclear. Can it be that Todbaum wants to produce one more extravaganza? Whatever he's up to, it may fall to Journeyman to stop him. Written with unrepentant joy and shot through with just the right amount of contemporary dread, *The Arrest* is speculative fiction at its absolute finest.
