The Sunday Times Bestseller 'Astonishing' ANTONY BEEVOR 'One of the most promising young historians to enter our field for years' MAX HASTINGS On a wet afternoon in September 1938, Neville Chamberlain stepped off an aeroplane and announced that his visit to Hitler had averted the greatest crisis in recent memory. It was, he later assured the crowd in Downing Street, 'peace for our time'. Less than a year later, Germany invaded Poland and the Second World War began. This is a vital new history of the disastrous years of indecision, failed diplomacy and parliamentary infighting that enabled Nazi domination of Europe. Drawing on previously unseen sources, it sweeps from the advent of Hitler in 1933 to the beaches of Dunkirk, and presents an unforgettable portrait of the ministers, aristocrats and amateur diplomats whose actions and inaction had devastating consequences. 'Brilliant and sparkling . . . Reads like a thriller. I couldn't put it down' Peter Frankopan 'Vivid, detailed and utterly fascinating . . . This is political drama at its most compelling' James Holland 'Bouverie skilfully traces each shameful step to war . . . in moving and dramatic detail' Sunday Telegraph

Standing against conventional wisdom, historian James Levy reevaluates Britain's twin policies of appeasement and rearmament in the late 1930s. By carefully examining the political and economic environment of the times, Levy argues that Neville Chamberlain crafted an active, logical and morally defensible foreign policy designed to avoid and deter a potentially devastating war. Levy shows that through Chamberlain's experience as Chancellor of the Exchequer, he knew that Britain had not yet fully recovered from the first World War and the longer an international confrontation could be avoided, the better Britain's chances of weathering the storm. In the end, Hitler could be neither appeased nor deterred, and recognizing this, Britain and France went into war better armed and better prepared to fight.

An engaging range of period texts and theme books for AS and A Level history. This book examines the key roles played by Adolf Hitler and Neville Chamberlain in the events that led to the outbreak of the Second World War. It looks at Hitler's foreign-policy aims, why appeasement became British foreign policy and, most extensively, the role of Chamberlain and appeasement in the unfolding international crisis of the late 1930s. Using a wide range of primary sources, Frank McDonough offers a generally critical interpretation of Chamberlain and appeasement, and suggests that standing up to Hitler earlier may have prevented war. The book also features a detailed analysis of the historical debates surrounding the issue of appeasement.

Essay from the year 2019 in the subject History Europe - Germany - National Socialism, World War II, grade: 7/7, language: English, abstract: This essay looks at the extent of the impact that the failure of the diplomacy of appeasement had in terms of its responsibility for the outbreak of the second world war.

At a crucial point in the twentieth century, as Nazi Germany prepared for war, negotiations between Britain, France, and the Soviet Union became the last chance to halt Hitler ' s aggression. Incredibly, the French and British governments dallied, talks failed, and in August 1939 the Soviet Union signed a nonaggression pact with Germany. Michael Carley ' s gripping account of these negotiations is not a pretty story. It is about the failures of appeasement and collective security in Europe. It is about moral depravity and blindness, about villains and cowards, and about heroes who stood against the intellectual and popular tides of their time. Some died for their beliefs, others labored in obscurity and have been nearly forgotten. In 1939 they sought to make the Grand Alliance that never was between France, Britain, and the Soviet Union. This story of their efforts is background to the wartime alliance created in 1941 without France but with the United States in order to defeat a demonic enemy. 1939 is based upon Mr. Carley ' s longtime research on the period, including work in French, British, and newly opened Soviet archives. He challenges prevailing interpretations of the origins of World War II by situating 1939 at the end of the early cold war between the Soviet Union, France, and Britain, and by showing how anti-communism was the major cause of the failure to form an alliance against Hitler. 1939 was published on September 1, the sixtieth anniversary of the Nazi invasion of Poland and the start of the war.

Drawing on a wealth of previously unexamined material, this staggering account sheds new light on the Allies ' responsibility for a landmark agreement that had dire consequences. On returning from Germany on September 30, 1938, after signing an agreement with Hitler on the carve-up of Czechoslovakia, Neville Chamberlain addressed the British crowds: " My good friends...I believe it is peace for our time. We thank you from the bottom of our hearts. Go home and get a nice quiet sleep. " Winston Churchill rejoined: " You have chosen dishonor and you will have war. " P. E. Caquet ' s history of the events leading to the Munich Agreement and its aftermath is told for the first time from the point of view of the peoples of Czechoslovakia. Basing his work on previously unexamined sources, including press, memoirs, private journals, army plans, cabinet records, and radio, Caquet presents one of the most shameful episodes in modern European history. Among his most explosive revelations is the strength of the French and Czechoslovak forces before Munich: Germany ' s dominance turns out to have been an illusion. The case for appeasement never existed. The result is a nail-biting story of diplomatic intrigue, perhaps the nearest thing to a morality play that history ever furnishes. The Czechoslovak authorities were Cassandras in their own country, the only ones who could see Hitler ' s threat for what it was, and appeasement as the disaster it proved to be. In Caquet ' s devastating account, their doomed struggle against extinction and the complacency of their notional allies finally gets the memorial it deserves.

Since the 1930s, appeasement has been labeled as a futile and possibly dangerous policy. In this landmark study, Stephen Rock seeks to restore appeasement to its proper place as a legitimate--and potentially successful--diplomatic strategy. Appeasement was discredited by Neville Chamberlain's disastrous attempt to satisfy Adolf Hitler's territorial ambitions and avoid war in 1938. Rock argues, however, that there is very little evidence to support the belief that dissatisfied states and their leaders cannot be appeased or that appeasement undermines a state's credibility in later attempts at deterrence. Rock looks at five case studies from the past 100 years, revealing under what conditions appeasement can achieve its goals. From British appeasement of the United States near the beginning of the twentieth century to American conciliation of North Korea in the early 1990s, Rock concludes that appeasement succeeds or fails depending on the nature of the adversary, the nature of the inducements used on the antagonist, and the existence of other incentives for the adversary to acquiesce. Appeasement in International Politics suggests the type of appeasement strategy most appropriate for various situations. The options range from pure inducements, reciprocity, to a mixture of inducements and threats. In addition to this theoretical framework, Rock's explicit comparison of appeasement and deterrence offers important guidelines for policymakers on when and how to implement a strategy of appeasement. At a time when the strategy of engagement plays an increasingly central--and controversial--role in U.S. foreign policy, Appeasement in International Politics reestablishes the long-discredited use of inducements as an effective means of preventing conflict.

Part of a seven volume set which covers the Second World War from various different aspects, including the causes and background of the war, the war in Germany, the war in Japan, the Home Front and the Holocaust.
