Set Phasers On Stun: And other true tales of design ...
An oft heard phrase in any Star Trek movie or series. Setting phasers to stun indicates that the crew is not to engage in fatal action and thus only incapacitating the enemy for capture or to engage in diplomatic discussion after having achieved military superiority. "Set phasers to stun!" - Any captain or ranking officer of Star Trek.

Urban Dictionary: Set phasers to stun
Set Phasers on Stun Review #3 . The next chapter I read is called, "A Memento of Your Service". This is the fourth chapter of this book. This is a chapter about a ship captain. The memento is a whistle and chain that was passed from a captain to the main character of the story, Pastrengo Rugiati. Rugiati then becomes a captain of a merchant ...

Black Noise is the debut studio album by Canadian progressive rock group FM. Released in a limited edition by CBC in early 1978, it didn't receive widespread release until later that year when GRT/Passport Records did a full release of the album that shot up the Canadian record charts fueled by the hit single "Phasors on Stun". The B-side was the instrumental song "Slaughter in Robot Village".

Forty-seven years after NBC killed it off, Star Trek celebrates its half-century in a state of rude health. Boldly going where several other people have been before, Marcus Berkmann tells the story of this sturdy science fiction vehicle from its first five-year mission (rudely curtailed to three), through the dark years of the 1970s, the triumphant film series and The Next Generation, to the current 'reboot' films, with a younger cast taking on the characters of Kirk, Spock, McCoy and co. With

Online Library Set Phasers On Stun And Other True Tales Of Design Technology

wit, insight and a huge pile of DVDs, he seeks to answer all the important questions. Why did Kirk's shirt always get torn when he had a fist fight? What's the most number of times Uhura said 'Hailing frequencies open, sir' in a single episode? (Seven.) And what's the worst imaginable insult in Klingon? (Your mother has a smooth forehead.)

Book Summary This book is a scientific investigation into the Extraterrestrial Hypothesis, which demonstrates beyond a reasonable doubt that we are being visited by extraterrestrial Beings from another World. This story involves two unrelated cases of abduction. The first case is the well known Betty and Barney Hill case that was published in The Interrupted Journey in 1961, and Captured in 2007. The second case involves a married couple named Kay and Erik Wilson whose experiences were published in The Alien Jigsaw in 1993 and its accompanying Researcher's Supplement in 1994. Information from both of these cases have been merged together to prove that the star map that Betty Hill drew was

Online Library Set Phasers On Stun And Other True Tales Of Design Technology

not only real, but it was actually Earth based. The Wilson case proved to be the key in unlocking the door. Like Betty Hill, once again, a brave soul had the courage to ask the Beings where they come from; and as a result of this unique one on one conversation between Erik Wilson and a Grey, without realizing it, he was given major clues to find their home world. Set Your Phaser To Stun! reveals that Betty's star map is real and the Extraterrestrial Hypothesis has been purposely skewed to deceive the public. When Carl Sagan involved himself in this dispute many years ago, he claimed Betty's star map only showed meaningless random dots, which were not specific points of reference for any known stars. This book proves that Sagan was wrong and was involved in what some people claim to be scientific misconduct relating to the UFO subject. The stars that Betty Hill drew of the star map she was shown in 1961 are anything but random. Set Your Phaser To Stun! takes a fresh new look at the Betty and Barney Hill case and examines previous interpretations of the star map, with particular emphasis on Marjorie Fish's Zeta Reticuli Interpretation. This new research, which began in the year 2000, uncovers the fact that some of our closest neighborhood stars are linked in a network of trade and exploration by a highly advanced extraterrestrial civilization that is less than 50 light years away from us. The real shock is the location of Sol, our sun, and the role humans play in the aliens' agenda. For far too long the establishment has systematically denied the Extraterrestrial Hypothesis has any substance. This opinionated stance has been based on the urgent need to control the dissemination of news that they feared would ultimately damage the fabric of our society should it be released. An extreme political drama of the highest order has been blocking disclosure. The Military Industrial Complex has been unwilling to relinquish control to civilian authorities and

Online Library Set Phasers On Stun And Other True Tales Of Design Technology

there is a grave fear that disclosure will have a severe, negative impact on our Religious Institutions worldwide. They fear allowing the public access to information which would severely challenge the traditional belief that humanity is unique and has a special relationship to God. The official position on this subject is based upon the idea that society is not prepared to handle the psychological impact of the knowledge that we are not alone in the universe. They have even gone so far as resorting to scientific misconduct because they are deeply afraid of possible societal upheaval. Fortunately, in May of 2008, a remarkable turn of events occurred within the Catholic Church when astronomer Father Gabriel Funes wrote in the Vatican Newspaper that "intelligent beings created by God could exist in outer space." He moved further toward official legitimization of the acceptance of other life by calling the aliens our "Brothers and Sisters." This was the beginning of a slow and well planned acclimation process of one billion Catholics worldwide. It has often been stated that we would have to rewrite history if contact with an alien civilization ever took place. Set Your Phaser To Stun!- is the beginning of that process.

i Prologue 1 The Atomic Chef The disturbing story behind one of history's worst nuclear criticality accidents.2 The Embryo Imbroglio A deviation in procedure at a Manhattan fertility clinic results in a big surprise for two patients.3 Signal Detection How airline security officials in Paris classified and misclassified shoe bomber Richard Reid.4 Out of Synch The Canadians cry foul at the Barcelona Olympics when an American wins the gold, but the problem lies with the user interface of the judges keypad.5 Death on Call A US Special Forces team in Afghanistan mistakenly targets a precision-guided bomb on their own position.6 Picture Window

Astronauts race to locate the source of a threatening air leak aboard the International Space Station.⁷ **Event Horizon** A harmless MRI scan at a New York hospital turns to tragedy for a young patient when good intentions interact with an invisible force.⁸ **Freeway Driver** Artist Richard Ankrom takes matters into his own hands to enhance a confusing freeway sign.⁹ **Caught on Tape** The nightmare flight of AeroPeru 603 off the coast of South America, and its surprising cause.¹⁰ **911, More or Less** A chain of errors in an emergency dispatch center has tragic consequences for a Los Angeles family.¹¹ **ATM** Its Thanksgiving evening, and one unfortunate bank customer in New Jersey contemplates spending the holiday locked inside an automatic teller booth.¹² **Under the Radar** Maintenance errors and low load estimates bring down a commercial airliner.¹³ **Safer than Safe** How early batches of Salk polio vaccine actually spread the dreaded disease rather than prevent it.¹⁴ **Rhymes and Reasons** The ergonomics involved in musician John Denvers final flight.¹⁵ **A Kid in a Car** A toddler in Kansas is strangled by an electric-powered vehicle window of a particular design.¹⁶ **The Perilous Plunge** This amusement park ride is much too perilous for one unfortunate customer.¹⁷ **Titanics Wake** Two Chicago dockworkers witness a maritime calamity of unthinkable consequence.¹⁸ **Driven to Distraction** A French motorist discovers yet another form of driver distraction.¹⁹ **Negative Transfer** NASA test pilot Milt Thompson faces certain death unless he can quickly determine why his experimental aircraft is wobbling out of control.²⁰ **End Game** Greek shipping magnate Pandelis Sfinias contemplates his own fate and the causes of the sinking of the Express Samina ferry.

Providing guidance on a broad range of issues for young children and adolescents, *Ergonomics for Children: Designing Products and Places for Toddlers to Teens* give you a deep

Online Library Set Phasers On Stun And Other True Tales Of Design Technology

Understanding of how children develop and how these developmental changes can influence the design of products and places for children. Copiously illustrated with photos and other images, the book helps you quickly find answers to your questions, grasp concepts, and apply them. Its subsections are organized to help you locate and understand the content you need. Edited by experts with contributions from an international panel, the book is both broad in coverage and international in perspective. The contributors review the ways in which children develop physically, perceptually, cognitively, and socially and then use this information to provide practical guidelines for the design of places and products for children.

An original novel set in the universe of Star Trek: The Original Series! 2268: Following the encounter with the mysterious Gary Seven in the twentieth century, the crew of the U.S.S. Enterprise is startled by two intruders who have transported through space and time from Earth circa 1968. Incredibly, one of the infiltrators is a Vulcan, who asserts that he's lived among Earth's population for over a decade. The other represents a little-known race, and reveals to Captain James T. Kirk that she has spent that last twenty years working to bring about humanity's destruction. It is then that Gary Seven's young protégé, Roberta Lincoln, arrives seeking Kirk's help... 1947: In the wake of the infamous "Roswell Incident" involving a crashed alien craft and beings from another world, Captain James Wainwright finds himself recruited as one of the first members of Majestic 12, a secret organization with two goals: Collect evidence of extraterrestrial activity on Earth, and develop strategies to combat alien invaders. And it is this very mission that will consume Wainwright's life for the next two decades, driven by the knowledge that the danger is as real as the aliens living among us... ™, ®, & © 2013 CBS Studios, Inc. How presidents spark and sustain support for wars remains an enduring and significant problem. Korea was the first limited war the U.S. experienced in the contemporary period - the first recent war fought for something less than total victory. In *Selling the Korean War*, Steven Casey explores how President Truman and then Eisenhower tried to sell it to the American public. Based on a massive array of primary sources, Casey subtly explores the government's selling activities from all angles. He looks at the halting and sometimes chaotic efforts of Harry Truman and Dean Acheson, Dwight Eisenhower and John Foster Dulles. He examines the relationships that they and their subordinates developed with a host of other institutions, from Congress and the press to Hollywood and labor. And he assesses the complex and fraught interactions between the military and war correspondents in the battlefield theater itself. From high politics to bitter media spats, Casey guides the reader through the domestic debates of this messy, costly war. He highlights the actions and calculations of colorful figures, including Senators Robert Taft and Joseph McCarthy, and General Douglas MacArthur. He details how the culture and work routines of Congress and the media influenced political tactics and daily news stories. And he explores how different phases of the war threw up different problems - from the initial disasters in the summer of 1950 to the giddy prospects of victory in October 1950, from the massive defeats in the wake of China's massive intervention to the lengthy period of stalemate fighting in 1952 and 1953.

This is a comprehensive, but accessible text that introduces students to the fields of human factors and ergonomics. The

Online Library Set Phasers On Stun And Other True Tales Of Design Technology

book is intended for undergraduate students, written from the psychological science perspective along with various pedagogical components that will enhance student comprehension and learning. This book is ideal for those introductory courses that wish to introduce students to the multifaceted areas of human factors and ergonomics along with practical knowledge the students can apply in their own lives.

How does the Star Trek universe stack up against the real universe? What warps when you're traveling at warp speed? What is the difference between a wormhole and a black hole? Are time loops really possible, and can I kill my grandmother before I am born? Anyone who has ever wondered "could this really happen?" will gain useful insights into the Star Trek universe (and, incidentally, the real world of physics) in this charming and accessible guide. Lawrence M. Krauss boldly goes where Star Trek has gone-and beyond. From Newton to Hawking, from Einstein to Feynman, from Kirk to Picard, Krauss leads readers on a voyage to the world of physics as we now know it and as it might one day be.
