What does psychology have to do with affirmative action? In the author's opinion, questioning the relevance of psychology to an issue such as affirmative action is, unfortunately, not an uncommon query, even among many people within the field of psychology. When most people, both within and outside the field, make an association between psychology and affirmative action, it is in terms of the debate over racial differences in performance on intelligence tests. Thus, the decision to write this book was based upon what was seen as a need to demonstrate and

highlight the substantive contribution that psychology can make in terms of improving our understanding of why it is that people respond to affirmative action with a variety of reactions and emotions. The primary goal of this book is to discuss empirical research and theoretical work on affirmative action from a psychological perspective. The intended audience is academics, including undergraduate and graduate students, and social science researchers.

other every day; questions such as: Why do some people behave differently when on their own, to when they 're with a group? What leads individuals sometimes to hurt and sometimes to help one another? Why are we attracted to certain types of people? How do some persuade others to do what they want? The new edition of Social Psychology has been revised to introduce a more flexible structure for the teaching and studying of social psychology and includes up-to-date, international research in the area. There is an emphasis throughout on the critical evaluation of published research, in order to encourage critical thinking about the various topics. Applied examples across the chapters help to highlight the relevance, and hence the impact, that the theories and methods of this fascinating subject have upon
