Popping pimples incorrectly can lead to infection and scars, but some pimples can be popped. Blackheads, pustules, and whiteheads are OK to pop if the pop is done correctly. Hard, red bumps beneath the skin should never be popped. Good news, diehard pimple poppers. Chances are good that you've been taught to think of popping pimples as an ultra-forbidden pleasure, sure to lead only to intense scarring, infection, and condemnation from your peers.
