Reflecting the highly globalized nature of tastes, production, labor markets, and financial markets in today's world, *Managerial Economics in a Global Economy, Seventh Edition*, is ideal for undergraduate and MBA courses in managerial economics.

Thoroughly adopting a global perspective, it synthesizes economic theory, decision science, and business administration studies, examining how they interact as a firm strives to reach optimal profitability and efficiency in the face of modern constraints.

FEATURES: * Integrates examples, data, and theories on the international ramifications of managerial decisions into the entire text, rather than segregating the material in a separate chapter *

Demonstrates how firms actually reach managerial decisions with 122 real-world case studies and 11 more extensive integrating studies, along with additional case studies and applications on the Companion Website * Prominently features those tools of decision making, such as spreadsheet applications, that are so in demand by students *

Introduces many new and exciting topics, including firm architecture, firm governance, and business ethics; Porter's strategic framework and the evolution of the creative firm; electronic commerce and risk management; and more * Offers instructors maximum flexibility with a modular structure that is suitable for both full-term and briefer courses, and can be used with or without calculus **NEW TO THIS EDITION:** *
