Effective Online Teaching is an essential resource that offers a clear understanding of how cognition and learning theory applies to online learning. This much-needed resource provides specific strategies for incorporating this knowledge into effective learner-centered teaching that gets results. The book includes strategies on motivation, tailored instruction, interaction, collaboration, monitoring and communication, time and information management, student concerns, and legal and ethical issues. Designed as a text for online instructors, the chapters can be used for self-directed learning or in a formal training setting in concert with the companion Training Manual and CD. "Tina Stavredes has done something sorely needed in the online teaching world —she has successfully combined solid theory and research with the practical application of instructor training. Both the book and the training manual are a 'must' for any online education organization. Bravo!"—Dr. Darcy W. Hardy, assistant vice provost for Technology Education Initiatives, University of Texas at San Antonio, and chair emerita, United States Distance Learning Association "Drawing from years of experience and solidly grounded in an understanding of the adult learner and learning, Stavredes offers dozens of helpful instructor strategies, activities, and resources to support adult learners' success in an online environment. Effective Online Teaching and its accompanying training manual is a 'must-have' set for online instructors in higher education, corporate, and government settings."—Sharan B. Merriam, professor emeritus of adult education, University of Georgia, and coauthor, Learning in Adulthood "An eminently practical book that provides clear and unpretentious explanations of the learning theories that are essential knowledge for every online teacher, together with equally uncluttered and easy-to-follow guidance about how to apply this knowledge to achieve excellent teaching."—Michael Grahame Moore, Distinguished Professor of Education, The Pennsylvania State University, and editor, The American Journal of Distance Education

Faculty members, researchers, instructional designers, students, administrators, and policy makers who engage with online learning will find this book an invaluable resource.

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

Teach is a concise introduction to education that challenges students' preconceived notions of teaching in order to transform them into reflective practitioners. Empathizing with the difficulties students face as they move from the college classroom to their own classrooms, revered author Janice Koch invites readers to both reflect on their own dispositions for teaching and look outside of themselves to the demands of the profession, making the philosophy of teaching and learning accessible and relevant. The Fourth Edition emphasizes the changing student population and the role of technology and globalization in the field, while also including the Interstate Teacher Assessment and Support Consortium (InTASC) standards correlating with each chapter's content. With the guidance of this supportive text, students will gain vital exposure by engaging with professional standards from the very start of their career. Teaching is a lifelong challenge, but the first few years in the classroom are typically a teacher's hardest. This expanded collection of writings and reflections offers practical guidance on how to navigate the school system, form rewarding relationships with colleagues, and connect in meaningful ways with students and families from all cultures and backgrounds.

Penguin Classics presents John Steinbeck's classic tale as an eBook enhanced with ten exclusive video clips featuring students responses, questions for classroom discussions, and an American Dream assignment Nobel Prize-winner John Steinbeck's Of Mice and Men remains one of America's most widely read and taught novels. An unlikely pair, George and Lennie, two migrant workers in California during the Great Depression, grasp for their American Dream. Laborers in California's dusty vegetable fields, they hustle work when they can, living a hand-to-mouth existence. For George and Lennie have a plan: to own an acre of land and a shack they can call their own. When they land jobs on a ranch in the Salinas Valley, the fulfillment of their dream seems to be within their grasp. But even George cannot guard Lennie from the provocations, nor predict the consequences of Lennie's unswerving obedience to the things George taught him. Of Mice and Men: Teacher's Edition includes the following: • An introduction and suggested further reading by Susan Shillinglaw, a professor of English at San Jose State University and Scholar-in-Residence at the National Steinbeck Center in Salinas • The poem " To a Mouse, On Turning Her Up in Her Nest with the Plough, November 1785" by Robert Burns (the original source of Steinbeck's title Of Mice and Men) • The 1962 Nobel Banquet Speech by John Steinbeck • An exclusive audio interview with award-winning actor James Earl Jones on his stage performances in Of Mice and Men • Ten exclusive videos of students on major themes from the novel tied to group discussion questions included in the eBook, and an American Dream assignment, for the ultimate educational experience

An update to a provocative manifesto intended to serve as a platform for debate and as a resource and inspiration for those teaching in online environments. In 2011, a group of scholars associated with the Centre for Research in Digital Education at the University of Edinburgh released " A Manifesto for Teaching Online," a series of provocative statements intended to articulate their pedagogical philosophy. In the original manifesto and a 2016 update, the authors counter both the " impoverished" vision of education being advanced by corporate and governmental edtech and higher education's traditional view of online students and teachers as second-class citizens. The two versions of the manifesto were much discussed, shared, and debated. In this book, the authors have expanded the text of the 2016 manifesto, revealing the sources and larger arguments behind the abbreviated provocations. The book groups the twenty-one statements (" Openness is neither neutral nor natural: it creates and depends on closures"; " Don't succumb to campus envy: we are the campus") into five thematic sections examining place and identity, politics and instrumentality, the primacy of text and the ethics of remixing, the way algorithms and analytics " recode" educational intent, and how surveillance culture can be resisted. Much like the original manifestos, this book is intended as a platform for debate, as a resource and inspiration for those teaching in online environments, and as a challenge to the techno-instrumentalism of current edtech approaches.

Once again, the State of Arkansas has adopted An Arkansas History for Young People as an official textbook for middle-level and/or junior-high-school Arkansas-history classes. This fourth edition incorporates new research done after extensive consultations with middle-level and junior-high teachers from across the state, curriculum coordinators, literacy coaches, university professors, and students themselves. It includes a multitude of new features and is now full color throughout. This edition has been completely redesigned and now features a modern format and new graphics suitable for many levels of student readers.
