The Analysis Of News Style

News style, journalistic style, or news-writing style is the prose style used for news reporting in media such as newspapers, radio and television. News writing attempts to answer all the basic questions about any particular event—who, what, when, where and why and also often how—at the opening of the article. This form of structure is sometimes called the "inverted pyramid", to refer to the decreasing importance of information in subsequent paragraphs. News stories also contain at least ...

News style - Wikipedia

About News Style American journalism has a long history of objectivity - telling a balanced story fairly without taking sides. The reporter tries to include all sides and leave out his or her personal views or opinions, never using the word "I."

Style Analysis Definition & Examples

News writing follows a basic formula. While styles can diverge more dramatically depending on the kind of story—a feature story may look and sound very different than a hard news story—all news stories are cut from the same mold. The first element of news writing is, of course, to deliver the news.

What You Need to Know About News Writing

The Basic News Structure. Writing the news takes practice and skill that requires you to gather the necessary information that the public needs to be aware of. Most, if not all journalists follow a specific format called the inverted pyramid wherein the most important information is written first all the way down to the least important information.
