Let's face it—fixing and flipping houses is sexy. Who doesn't love the idea of buying a rundown, mold-infested shack and transforming it into someone's dream home for massive profits? Reality TV shows make it look so easy. A little paint here, some new kitchen cabinets there, and presto! The house is sold for big bucks and everyone lives happily ever after. If only it were that simple. Fixing and flipping houses is a business. In order for a business to survive, prosper, and grow, systems must be put in place. Fixing and Flipping Real Estate: Strategies for the Post-Boom Era is a book that breaks down the four essential components of a fix-and-flip business, giving you the building blocks to efficiently buy and sell 1 to 20 properties a month in today's post-boom era housing market. You'll learn about each of the boxes: Acquisition—How to find and buy a profitable real estate deal. Rehabbing—How to systematically remodel a house and how not to underimprove, or overimprove, your property. Sales—How to sell your flip for the highest possible price in the shortest possible time. Raising Capital—How to get the capital you need to grow your business, including using other people's money, for your real estate deals without getting sued or going to jail. In the post-real estate boom era, fixing and flipping is again a solid business--especially in the "sand" states—Arizona, California, Nevada, Texas, and Florida, among others. It's also a good bet in states as diverse as North Carolina and Washington State. And with the real estate market projected to bottom out nationally in 2012 (this time for real), there are plenty of houses to be renovated and plenty of money to be made by the enterprising in all fifty states. This book shows real estate investors everything they need to know to get started fixing and reselling houses either as a substantial sideline or a full-on business.

THE HOUSE-FLIPPING HOW-TO THAT TURNS EVERYDAY PEOPLE INTO ENTREPRENEURS Everyone likes the idea of turning the ugliest house on the block to the best house on the block and making a profit. Until now a system has not been shared on how to successfully complete this task on time and budget without getting your hands dirty. This book not only cracks the code but shares the proven path and system to have a systems based rehab business that makes consistent profits for ordinary everyday people. The Real Estate Rehab Investing Bible reveals the lucrative seven-stage system that allows author Paul Esajian, and his students all across North America, to manage multiple rehab projects at once, while staying on time and under budget to build and grow their wealth. No experience? No problem. You'll learn strategies to find

the right properties, negotiate the right offer, identify the right licensed and insured contractor for the job, and get the property sold to a happy homeowner for a profit. No capital? No problem. You'll learn how you can use other people's money to fund your deals and the IRS guidelines that help you keep more of the money you make. By learning and leveraging the principals of rehabbing and real estate, you'll start thinking like a business owner rather than a consumer. Breaking into residential real estate provides an amazing opportunity for those with little, or no experience, and using other people's money. This book gives you the information, education, and systems every investor needs to start flipping and rehabbing houses without doing the work yourself, and without losing your shirt to contractors and bad investing decisions. Find Deals: where and how to find deals, analyzing deals, and estimating repairs in minutes to acquire a rehab Fund Deals: where and how to borrow money, creative financing, and the finance request template to present to asset-based lenders and private lenders to fund your deal Fix Deals: how to run a rehab with a proven system without lifting a hammer, identify A+ licensed and insured contractors at wholesale pricing, and what to focus on to maximize your profit Flip Deals: how to properly price, stage, and add the sizzle features to get properties sold within weeks of listing the property by properly analyzing comparables and staging the rehab properly The proven techniques Paul shares work in any location, in any market. If you're ready to get in the game, The Real Estate Rehab Investing Bible teaches you how to play.

With over 1,000 successful real estate deals between them, the authors combine the science of negotiation with real world experience to dive into all aspects of the real estate negotiation process -- from the first interaction with a buyer or seller, to renegotiating the contract after unexpected issues arise, to last-minute concessions at closing. Aimed at real estate investors and agents at any level, this book not only covers all aspects of negotiating real estate deals, but also contains dozens of true-life stories that highlight how strong negotiation can result in more and better deals, as well as dialogue that will teach you what to say and how to say it, strengthening your ability to close profitable transactions.

How to accommodate contemporary life in a historic house. This book does not repeat basic information that is readily available in many standard DIY books about carpentry, wiring, and plumbing. Rather, it shows how to adapt those DIY skills to the specialized needs of a historic house. Although there are other books about renovating old houses, this is the first that prioritizes the identification and preservation of the historic, character-defining features of a house as a starting point in the process. That is the purpose of this book: to describe and illustrate a best-practices approach for updating historic homes for modern life in ways that do not attempt to turn an old house into a new
