BACK COVER OF BOOK Learn to heal yourself and others. Are You a Healer? Everyone has the ability to heal but most people do not pay attention to this wondrous skill. To heal with energy is to believe the spiritual truism that energy comes first and all else stems from it. Most people believe in the world that they see with their eyes but not the internal world that they feel with their hearts and spirit. It is your energy that creates who you are and what happens to you. Who can be a healer? Everyone is a healer. All of us are Light Beings. Each one of us holds the magical key of reaching the healer within, the part of you that is whole and always in touch with the oneness of the universe, which is what we call your Higher Self. Healing is the art of bringing a person's energy back to a true balance. We all have the ability to heal ourselves, and others. Energetic Healing introduces you to the skills of being able to diagnose to heal; to understand the nature of Karma and Free Will; to heal without taking on the other person's pain, energy or problem; and to heal from a place of neutral cosmic love. Healing is a very powerful skill. It is the type of skill you will get to practice more than any other skill since people seem always to be encountering one healing problem or another in life! You do not have to become a professional Healer or a full time healer to practice the art of healing. There is always some type of healing to be done. Sometimes it is a healing of a physical problem but it can also be a healing of an emotional, mental or spiritual nature too. What the Healer learns from Healing: Healing is the ability to change or shift energy. If you can shift your own energy or someone else's to heal yourself of a physical problem you can also shift your energy to "heal" yourself of an emotional, mental, financial or spiritual problem too. Many people study Energetic Medicine, and go on in life to use these skills to improve their financial situation, to create better relationships with spouses and family members, to change outmoded, rigid or stuck ways of thinking, to clear old emotional patterns and feelings and to release physical pain and trauma in their bodies. Energetic Medicine is the art of moving energy. Once you understand that "energy" comes first and is the cause of all of your experiences you can use your skills to move the energy and learn to create your own reality. The author, Levanah Shell Bđolak, has taught this form of energy healing for thirty years. In this book she gives you step by step instructions to practice energetic healing as if you are attending a class in person.

This book is intended to be a 'Single Point Book of Reference' for issues related to good health and wellbeing. Accomplishes a 'First' in presenting a comparative analysis of the seven main energy therapies namely Acupressure, Acupuncture, Pranic Healing, Psycho Neurobics, Reiki, Yoga and Yog Nidra. Promotes a 'Preventive health care' Strategy employing 'Health of Energy Body'. Affirms 'Integrated healing' of Physical and Energy bodies towards accelerated and total healing. Advocates 'Blending of Energy Therapies' to fight major diseases.

A Step-by-Step Guide for Cultivating Financial Well-Being "Money is a story, one that too often is used against us. When you're ready to engage with intention, this book can help rewrite your story." —Seth Godin, author of The Practice Does prosperity lead to happiness . . . or is it the other way around? As a therapist, Joyce Marter noticed an extraordinary trend: as her clients improved their mental health, they also began receiving raises, getting promotions, finding better jobs, or starting their own successful businesses. Since that epiphany, Marter has become a go-to expert on the "Psychology of Success"—establishing ways to help you improve your financial well-being by focusing on your psychological and relational issues around money. With The Financial Mindset Fix, Marter crystallizes her most powerful and effective practices for long-term prosperity. Here, she guides you through 12 essential mindsets for transforming your relationship with yourself to welcome a life of wealth. Within each are innovative exercises, self-assessment tools, and insights for shifting into a mindset of abundance. In The Financial Mindset Fix, you will discover: What it means to cultivate a holistic view of success Why mindsets based on scarcity and zero-sum thinking lead to suffering Possible triggers for financially risky behavior and how to defuse their power The simultaneously challenging and surprisingly easy task of proper budgeting Why holding on to resentment also holds you back from your potential How to manage the desires of the ego without becoming either a doormat or a diva Why acknowledging your interconnection with others gives rise to stronger empathy and collaboration Mindfulness, lovingkindness, self-inquiry, and other practices—all refocused on financial wellness "We are all works in progress," writes Marter. "No matter where you are on your journey, these tools are meant to be lifelong companions to a life of greater prosperity and joy."

A therapist shares her memoir of survival after the death of her infant daughter and the process she developed to cope with her grief. How do you make sense of loss and tragedy? After the sudden and devastating loss of her infant daughter, Lily Dulan (a marriage and family therapist, psychotherapist, and certified yoga teacher) meditated, prayed, and ruminated on the only thing she had left—her baby girl's name. In Lily's courage to address and move through her pain, she developed a combination of proven psychological modalities, twelve-step wellness tools, spiritual healing applications, meditations, and ancient yoga. She calls this self-help process "The Name Work". In her heartfelt memoir, Lily shares her healing journey and her method for unleashing the power in names and giving them special meaning to help move through the grief process in a thoughtful and transformative way. The Name Work method teaches you how to assign special meaning and qualities to the letters in names—a deceased loved one's or your own—and how to create positive affirmations for each letter's attribute. It is a tangible and personal self-healing method for whatever obstacles arise: a unique, new wellness tool for healing and self-discovery. Also includes: Affirmations, self-guided questions, meditations, and practices An A-Z dictionary of qualities to help create your own affirmations Life hacks for addictive behaviors and moving through trauma and loss A first-hand account of the author's personal healing journey Praise for Giving Grief Meaning "Such a wise, gentle book, born of great loss, on healing, grief and transformation." —Anne Lamott, New York Times–bestselling author of Dusk, Night, Dawn "Lily Dulan had to bear the unbearable, a loss that is every parent's nightmare. This book relays her journey from the valley of excruciating pain to a peaceful life on the other side of it. She began the journey not knowing if peace would ever be hers again. She was rewarded for each step she took in trying to find it, discovering keys that indeed unlocked the way for her and which now she can share with others. For those still in earlier phases of grief, this book illuminates some mysterious ways a broken heart can heal." —Marianne Williamson, #1 New York Times bestselling author of A Return to Love
