The real beast (and the genius of that  
beast) is human nature. And what it  
needs is a rediscovery. And the real  
hero of this book is the hero of every  
successful book: the reader (in the  
person of the author). Howard Bloom  
himself plays that role with zest and  
feeling as he repeats again and again  
"you and me."

the era of American leadership over?  
Has the West begun a decline into a

civilization deserve to survive? These  
are the unnerving questions raised by

begun to realize its full potential. Author Howard Bloom argues that there ' s a hidden mandate beneath the surface of capitalism: "It ' s struggling to whisper and rumble its message to you and me. That hidden imperative can lift us from economic crisis, can make us a leader in the next-generation economy, and can dramatically upgrade our ability to empower our fellow human beings." Bloom sees crisis as opportunity, opportunity for the whole human race. In more than eighty short, fast chapters, insights appear suddenly, like the quick bursts of flashbulbs, taking the reader on a sweeping tour of human history, from the Stone Age to the present. Every chapter conveys a radically new way to see the astonishing mechanism we call "Western Civilization." Bloom marvels

at how humans have turned toxic waste into food and fuel, trash into treasure, and garbage into gold. He shows how we've produced material miracles based on immaterial things—passion, persistence, and fantasy. He shows that what many regard as the end is just the beginning. The beginning of something you've never before imagined. The author explains why the secret to capitalism's next great leap does not lie in new financial tricks, but in tapping things right under our noses in radically new ways—that is, tapping our imagination, our desire to feel useful, our desire to help others, and our desire to be recognized for contributing to the welfare of humanity. The key to next-generation capitalism lies in a big-picture view

that's utterly unlike anything you've previously perceived. A big-picture view that will startle you. A big-picture view with which you can ignite the world, get a new handle on your life, and help transform society. This brilliant, inspirational work of daring ideas and breathtaking research offers more than hope. It offers unseen levels of understanding. Understanding that can literally redefine what it means to be a human being.

This three-volume set reprints Joseph Warton's "An Essay on the Genius and Writings of Pope," along with other responses to Pope, and to Warton. The collection brings together significant documents both in the formation of eighteenth century opinion of Pope and in the development of criticism during the century. A new introduction by the editor, and an appendix discussing the revisions between editions of Warton's "Essay" make this set especially valuable to the researcher.

Garden I am with them. I feel their longing to return, their guilt and shame, and their fears about the future. I feel their anxiety about their Creator: Is He still with them? Does He still love them? I feel their rising panic as they realize that this no-longer-so-cozy world might make life impossible for them. As Abraham walks silently up the mountain to sacrifice his son I ask the questions he asks. Should I obey the dictates of my God, or is there a higher good involving the sanctity of human life? Can I be Abraham if I refuse to listen to the God I revere? Can I be Abraham if my beloved God demands human blood for His adoration? As Jacob wrestles throughout the long dark night I am with him. Like Jacob, I sweat as he faces his betrayal of father and brother; as he witnesses,

full-face, his character, naked and base. Then, the next morning, I weep as he and his brother weep. Join me on this pilgrimage into the wisdom that is Genesis. For this journey, it is Adam and Eve, Abraham, Isaac, Jacob, and even God who serve as guides. It is my fervent hope that by journey's end we will find ourselves.
