John Bardeen is the only Nobel Laureate who has been awarded the Nobel Prize in Physics twice, in 1956 and 1972. This means that a total of 215 individuals have received the Nobel Prize in Physics.

A history of the Nobel Prize reveals the biases and controversies inherent in the choosing of award winners in each field, scandals, corruption, and the problems stemming from a refusal to change with modern times.

Founded by the brilliant, misanthropic inventor of dynamite, the Nobel Prize has for a hundred years claimed to identify the summit of human achievement. But what exactly is the Nobel Institution? How does it choose its winners? Has it ever made a mistake? And why does the prize hold such importance? With deft insight and sparkling wit, Burton Feldman considers these questions while taking us on a fascinating tour of every aspect of Alfred Nobel's grand legacy: its founder, its aura, its fields of award(literature, physics, chemistry, medicine, peace, and economics)and its laureates' personalities and rivalries, as well as its biases, controversies, and blunders. The first comprehensive and critical survey ever written of the world's most famous award, The Nobel Prize is a masterly synthesis of biography, storytelling, and interdisciplinary analysis, ranging easily and confidently from literature to science to politics to economics. This monumental, witty, and eloquent book will remain the definitive work on the prize for decades to come, remarkable for its comprehensiveness, depth of insight, and never-failing capacity to surprise and entertain.

The Nobel Prize is awarded for achievements in physics, Chemistry, Medicine, and Literature and for Peace. The Nobel Prize is an international award given by the Nobel foundation in Stockholm, Sweden. In 1968, the prize in Economics was established in memory of Alfred Nobel, the founder of the Nobel Prize. Each Prize consists of medal, certificate of appreciation, and cash award. Founded in 1901 by the inventor of dynamite, Alfred Nobel, the Nobel Prize is the world's most celebrated honour. It grants its winners instant celebrity status and acclaim. It is very difficult to select the best out of best, because general perception is that a Nobel laureate is always the best in the concerned field. This book comprises brief biographies of many famous Nobel laureates. In last chapter, a list has been given that comprises the name of all the Nobel Prize winners in all six categories for the readers benefit. You would certainly find this book informative, inspiring and educative. It is a good reference book too.

This book presents the 24 discoveries in infectious diseases that have merited Nobel Prize recognition since the inception of the awards in 1901. Grouped according to biological groups rather than chronology, each discovery includes a biographical sketch of the laureate(s), a description of the research, and a summary of the current status of the field. In addition, consideration is given to the relevance of the research on the general field of biology and medicine.

The complete acceptance speech of Louise Glück, winner of the 2020 Nobel Prize in Literature.

"In The Beginner's Guide to Winning the Nobel Prize, Doherty recounts his unlikely path to becoming a Nobel Laureate. Beginning with his humble origins in Australia, he tells how he developed an interest in immunology and describes his influential work with Rolf Zinkernagel on T-cells and the nature of immune defense. Doherty reveals how his nonconformist upbringing, sense of being an outsider, and search for different perspectives have shaped his life and work."-Jacket.

The book opens with the portrait of the man behind the awards: Alfred Bernhard Nobel and his biographical sketch. It gives an introduction to the Nobel foundation, prizes,selection of prize winners, and prize ceremonies. Nobel diplomas and Nobel Prize amounts are described in brief. In the end, a list of all 168 Nobel Prizewinners are given which includes the prize-awarding year and prize winning work.Also included is a short account of the laureates' life and work, followed by a historical and explanatory introduction to the particular discovery or achievement which gained him or her the prize.

From the first woman Nobel Peace Prize recipient, Bertha von Suttner (1905), to the latest and youngest female Nobel laureate, Malala Yousafzai (2014), this book in its second edition provides a detailed look at the lives and accomplishments of each of these sixteen Prize winners. They did not expect recognition or fame for their work--economist Emily Greene Balch (1946) was surprised to learn that anyone knew about her. But they did not work in isolation: all met with discouragement, derision, threats or--in Yousafzai's case--attempted murder and exile. A history of the Prize and a biographical sketch of Alfred Nobel are included.

A chronicle of peasant life during the four seasons of a year.
